fy Wilson broke off his holi-in the Isles of Scilly yester-afternoon to fly to the naval tion at Culdrose, Cornwall, hurriedly arranged talks h Mr Rees. He was apparw informed that at least two the SDLP ministers bad deto leave the Northern and Government.

he two men, Mr Paddy lin, Minister of Health and ial Services, and Mr Ivan per, Minister of Community ations, believe that only the mance of senior army officers prevented a decision to send fiers into the petrol starage as in Beliast, and that Mr ion has therefore broken bis of to the Executive.

he three Northern Ireland

Wilson made no mention of any military operation (Broadcast, oage 2). His biting criticism of the strikers as "thugs and bullies" and bis suggestion that they made a processing an the constitution Act began to crumble. they were spooging on the British taxpayer were treated with contemor by the loyalists; and Mr Faulkner, speaking in a local broadcast later, was left to tell his dwindliog supporters nnly that "the authority of lawful government must be, and will be, asserted".

Faulkner's Unionist nunisters were in conrlave during the afternoon, bitterty resectful at what they saw as the British Government's nactivity. "How can we escape the suspicion that Britain has deliberately let us down and that she wants to imdermine os, and re-impose direct rule". one of them said.

"Why has not Wilson done what he said he woold? How can the British possibly ask the Duhlin government to deal with the IRA, and criticiza them when they do not, and then refuse to take action against a loyalist strike? *

The Britisb Government and Opposition, without any plans for Northern Ireland's immediate future if the Executive falls, face the imminent destrue tinn of everything that ministers, civil servants, and MPs had struggled to create in the two bloody years since direct rule was otroduced. Two Unionist ministers said

esterday that Mr Rees had been be three Northern Ireland to the cutive party leaders were and had confused political flexified on Friday that action ld be taken to hreak the Certainly he seems to bave been red on Friday that action bility with lack of resolution, ld be taken to hreak the ay-old strike, but on radio refersion on Saturday Mr pulicies, guidiog the Executive

Mr John Home, SDLP Minister of Commerce, yesterday made it known that be bad prepated a glao by which the British authorities could maintain essential supplies of luel in Morthern Ireland and that was Northero Ireland and that was presumably the document contained in the party's ultimatum to Mr Rees.

Mr Devlin and Mr Cooper both Mr Devlin and Mr Cooper both went to Dublin last night to lell the Irish Government of the deepening divisions within the Executiva, Not least of those was the accusation by Mr Hume vasterday that Mr Rny Bradford, Minister of the Environment and a Unionist, had acted "despicably" in calling for talks with the strikers.

The SDLP asserted openly that a minister had been "leaking" Executive decisions to the Ulster Workers' Council, the Protestant strike organizers.

The Duhlin Government bas heen auxious to maintain the Executive and told Whitehall last week through the British Ambassador that troops should be used to break the strike. All weekend urgent party and

All weekend urgent party and ministerial discussions continned at Stormont amid signs of impending political collarse. The Army, after first preparing to enter the oetrol storact depots in Belfast on Saturday, was told at the eleventh hour not to do so, while the strikers asserted that they would continue their stranglehold on daily life in the province until fresh Assembly elections were announced.

Wilson breaks holiday for crisis talks Yesterday morning Mr Fitt. the SDLP leader and deputy citief executive, and Mr Derlin wete invited to Stormon: Castle to see Mr Rees, But Mr Derlin did not hother to 30. He was at home in Andersonstown when Mr Fitt mode his lonely journey to the castle, spent half an hour with Mr Rees and left without ceremony.

ceremony. Not a minister came to the door to see him go, and for several minutes Mr Fitt could be seen standing on the gravel forc-court, looking deeply distressed and talking with his special branch detective.

In his broadcast on Saturday Mr Faulkner outlined the cost no the strike, attacked the loyalists as bully hows, and asked everyone to tead the Constitution Act and realize that Northern Ircland could not be divided from the United Kingmajority of its people.

The economic inst of the strike, he said, amounted to millions of pounds, but the future cost, in damage to its teputation and prospects, was

"beyond calculatioo".

The overwhelming fear in the minds of many people. Mr Faulkner said, was that Ulster was being forced into a form of close association with the Irish Republic which could end only

"I myself have been, am, and will always remain a Unionist", he said, "If I thought for one moment that we were being forced into, or even forced towards a nuited Ireland I would he adding my own roice to the protest. But there is no such lao or intentioo or possibility.'

Mr Wilson underrates support for Ulster strike, Tory says: Labour MP urges recall of troops

drew criticism yesterday from a former Conservative minister and from a member of his own

In the speech the Prime Minister said the Government would not negotiate with the "thugs and hullies" who were trying to destroy Ulster's coustitution, and called on the people of Britain to continue to be parient and to support the Gov-ernment's efforts to "see it through " in the province.

Mr William Deedes, a senior Conservative backbencher and a former Home Office minister, said on the BBC's World This Weekend radio programme that Mr Wilson's speech had not heen

helpful because it underrated support in the province for the Ulster Workers' Council.

Mr Deedes suggested that some of the Unionists who were not totally unsympathetic to the strikers should be approached to find out what is now needed to restore some of the confidence.

find out what is now needed to restore some of the confidence "lost and badly damaged among the Protestant majority".

Mr Tam Dalyell, chairman of the Parliamentary Labout Party's foreign affairs group, accused Mr Wilson of making matters worse by his plea for patience. He said the attitude of both front benches on Ireland might be rational enough as seen from London.

seen from London.
"Unfortunately, it is divorced from reality", he said at Bathgate, in his West Lothian constituency. "As long as the Army is there in Northern Ireland many Irish will see the solution to their misery as someona else's problem, and pass by on the other side of the road like the hiblical Levite.

"The crunch has now come,

and there is no point in post-poning the day of reckoning. I can sympathize with Mr Wilson's frayed temper, but by asking for patience as long as it is needed, he is making the situation

Broadcasting on the Northern Ireland crisis on Saturday night, the Prime Minister said : As this holiday weekend begins, Northern Ireland faces the gravest crisis in her history. It is a crisis equally for all of us who live on

this side of the water.
What we are seeing in Northern Izeland is not just an industrial strike. It has nothing to do with wages. It has nothing to do with jobs—except to imperil johs.
It is a deliberate and calculated It is a deliberate and calculated attempt to use every undamocratic and un-parliamentary means for the purpose of hringing down the whole constitution of Northern Ireland so as to set ap there a sectarian and undemocratic state, from which one-third of the people of Northern Ireland will be excluded.

Continued from page 1
Northern Ireland could not tolerata a situation in which self-appointed groups of people decided who should be allowed out of a housing estate, receive petrol, or he allowed to open a business. Everyone has a right to make his protest within the

Where the political wildcats of Northern Ireland seek to divide and embitter, all the major parties id Britain have sought to heal and to

unite.
In the years before 1970 the then Conservative Opposition supported the action the Labour Government took when we put the troops in, in a security tole, and issued the Downing Street Declaration which gave the most specific guarantees to the people of Nurthern Ireland about their right to determine their own future.

about their right to determine their own future.
When Labour was in Opposition we supported Mr Heath, Mr Whitelaw and later Mr Prencis Pym, first when they suspended the old one-sided Stormont parliamentary system which had broken down, then when they devised a new constitution aimed at recoacilitation and shared power in Northern Ireland, and again in the initiatives they took to secure hetter relations

stitution aimed at recognination and shared power in Northern Ireland, and again in the initiatives they took to secure hetter relations between Ulster and the Irish Republic.

On few constitutional issues in our history have we seen the full Government party and the full Government party and the full Opposition party voting together for such measures and carrying them with overwhelming majoritles. Agreement was reached by the Northern Ireland Executive in the last few days on arrangements for a new and constructive relationship between North and South. It provides additional reassurance to those in the North who still feared that their way of life would give way to a new all-ireland system threatening their religious and political beliefs. There is nothing to fear here and they know it. What has been achieved in Northern Ireland these last two years provides hope for its future. We are not going to see that set aside by thugs and bullies behaving as they did at Ballymena last night [when two Roman Catholic hrothers were murdered]. We have made clear as a Government, and we speak for the overwhelming majority of the House of Communs so recently elected, that we will not negmate on constitutional or political matters in Northern Ireland with anyone who chooses to operate outside the established constitutional framework, with non-elected, self-appointed people who are systematically hreaking the law and intimidating the people of Northern Ireland—their fellow citizens and our fellow citizens and

our fellow citizens within the United Kingdom.

We stand by, as our predecessors stood by—and still stand by—the decision taken last year that the Northern Ireland Assembly and the Northern Ireland Executive provide the only hasis for peace, the only hasis for peace, the only hasis for order and good government in Northern Ireland.

Today the law is heing set aside. Estitish troops are being hampered in tasks which were already daunting and unprecedented within a ration supposed to be eajoyiog the henefits of peace.

Those win are now challenging constitutional authority are denying the fundamental right of every man and woman—the right to work. They have decided, without having

been elected by a single vote, who shall work in Northern Ireland, and who shall not. They seek to allocate food, to decide who shall eat and who shall not. By their action, children are prevented from going school, essential services Bank employees and semor management with a disclosure yesterday that Mr Alfred Wilson, the bank's chairman, hes received a 75 per cent pay rise of £15,000 to £35,000 a year. The staff are threatening to "black" salary

are in peril.

The payment of Social Security benefits is reduced to chaos through interference with the methods of

By their use of force and intimida-tion they have condemned hun-dreds of thousands of workers to dreds of thousands of workers to invuluntary unemployment. What they do not realize—is how far they may be imperilling the jobs of Northern Ireland for years to come, and this in a province where memployment is traditionally one of the greatest social evils. We recognize that behind this situation lie many genuine and deeply

the greatest social evils.

We recognize that behind this situation lie many genuine and deeply held fears. I have to say that these fears are nufounded: that they are being deliberately fustered by people in search of power.

The penple on this side of the water, British parents, British taxpayers, have seen their sons vilified and spat upon and murdered. They have seen the taxes they have poured out almost without regard to cost—over £300 million a year, this year with the cost of the Army operations on top of that—going into Northern Ireland. They see property destroyed by evil violence and are asked to pick up the bill for rehulding it. Yet people who henefit from this now viclously defy Westminster, purporting to act as though they were an elected government, spending their lives sponging on Westminster and British democracy and then systematically assault democratic methods. Whn do these people think they are?

It is when we see the kind of arrogant, undemocratic behavinur now going on that the patience of citizens, parents, taxpayers, becomes strained.

Tonight I ask for an extension of refusal to meet its demands for hetter pensions. Bank staff are angry that their chairman, who is also chief executive of the CWS, was awarded the rise to give him a more generous pension. He is due to retire on June 15 on half salary.

Leaders of the bank employees are claiming that they have received unsatisfactory replies

that patience for as long as it is needed.
Tonight I ask for the continued support of a long-suffering people in dealing with a situation in which the law is heing set aside and essential services are being interrupted. It is oor duty as the United Kingdom Parliament and the United Kingdom Government to ensure that induorities are protected, that those in greatest need are helped, that essential services are maintained, not by the con-

that charge merely an excuse for farmers to circumvent the Act, which it is commonly supposed prohibits the killing, capture or injury of the badger?

In fact, the Act affords little protection, apart from making the use of hadger tongs, digging for badgers and any cruel treatand some kind of "takeover" by the republic. That fear is wholly unjustified. The safeguards against ment illegal. Any " authorized person ", in-

cluding the owner or occupier of the land on which badgers are found, or any person to whom he gives permission, may at any time kill a badger without having to produce any special reason for so doing, and without needing any licence.

Only when a place has been declared an area of special protection for badgers by the person the Act refers to as the "Secre-tary of State" (helieved to mean the Home Secretary) must it be shown that the badger was causing serious damage to land, crops, poultry or any other form of property, or was contributing to the spread of disease. In the nine months since the

citizens, parents, raxpayers, becomes strained. Tought I ask for an extension of that patience for as long as it is Llandudno yesterday, where the annual Co-operative Congress is due to open today, the Co-operative Employers' Association expressed dismay at the Pay Board's action. It was agreed that retail societies should pay the rises in defiance of the untices of restrictions. MP wants law to allow are helped, that essential services are maintained, not by the condescension of a group of self-appointed persons operating nutside the law, but by those who have heen elected in ensure that these things shall be done. The people of Northern Ireland and their demncratically elected Assembly and Executive have the joint duty of seeing this thing through on the only hasis on which true unity can be achieved.—democratic elections, consoftenional government and the spirit of tolerance and reconciliation. And in doing that they will have the support of the British Government with our responsibilities, within the United Kingdom and our responsibilities in world affairs, for law and order in Northern Ireland. We intend to see it through with them.

An army question, page 6 gassing of badgers By Diana Geddes. A Ministry of Agriculture demonstration of badger killing in a bovine tuberculosis-infected area of Gloncestershire this month angered conservationists and animal-lovers. There was even a threat of legal action against the minister alleging cruelty to badgers, which is an offence under the Badgers Act, 1973. Conservationists ask if there is any proof that badgers are responsible for the spread of

Refusal to bow to challenge-Mr Pym

Mr Francis Pym, Opposition spokesman on Northern Ireland, in a hroadcast last night, said: The vast majority of people in Northern Ireland want peace. They want a civilized and democratic way of life. There are many unsung heroes: the people who have tried to carry ou their daily life in the face of terrorist violence; the people who even today are struggling to keep essential services going in the face of intimidation and obstruction. These people do not carch the headlines, but these are the hrave and peaceloving people whom we in the rest of the United Kingdom are proud to call our fellow chizens. The origin of the present troubles is the revival of the terrorism of the minority community, about one the new constitution and its con-cept of power being shared by as many political parties as possible, minority community, about one third of the population, who had no effective role in the government of Northern Ireland. The aim of successive British governments has been to do everything within their power to help the people of Northern Ireland in decide for themselves how best to order their own affairs, despite the conflicting aspirations of different sections of the community, for the benefit of all people living there. This is very difficult because of the inherent conflicts that exist. successive British governments has

very difficult heceuse of the in-herent conflicts that exist. Out of the continuous discussinns and consultations throughour 1972 and 1973 there emerged first of all the horder poll, which showed deci-sively that the people of Northern Ireland wished to remain part of the United Kingdom. Then came

Westminster and in Northern Ireland. No political group was excluded from the talks which led to the new constitution. Everyone had the chance more than once of putting his or her point of view. At the end of the day 't is the properly elected representatives of Northern Ireland who together have taken the decisions about Northern taken the decisions about Northern Ireland which have been imple-mented with the full authority of

What is happening now? It is nothing less than a direct challenge to the democreric and parliamentary process itself. The British people will not how to that—wherever such a challenge comes from, whoever makes it. We never have and we never will. Freedom

Apart from the smears, Mr West said, there was very little in Mr Wilson's talk. Much was

said about the Government's determination to keep essential

services running, but it had done

next to nothing.

Banker's warning to M Giscard From Richard Wigg

Paris, May 26

M Oliviar Wormser, governor of the Bank of France, bas warned M Valery Giscard d'Estaing just before be takes over the French presidency tomorrow how difficult the economic tasks facing bim are going The governor, high priest of

financial orthodoxy in France, writing in Le Figaro, tells e pragmatic M Giscard d'Estaing that if be continues the policy be adopted as Finance Minister
of accepting rising prices in order not to sacrifice economic growth—France could well end up as the Italian crisis up as the Italian crisis shows, with expansion made impossible by inflation.

The governor criticizes in succession the programme of social reforms and improvements the President-elect adopted during the election campaign; the tised over the past decade to help French exports; and the taking of large foreign loans to offset the edverse consequences for France's balance of payments of higher (uel and raw

material prices. M Wormser sounds highly sceptical about France's chances of keeping its currency within Community European

"snake" If it should try to re- May, 1968, it bas not been neces-join it with West Germany. Sary to insist on the political To control inflation, now running in France at around 13 per cent a year, the governor says sacrifices must be accepted end certain risks—which could in-clude "stagilation"—must also

M Wormser obviously regards the newly-promised social reforms as contradicting an effi-cacious anti-inflationary programme. He argues that so long as France's balance of payments daficit has not been rectified, it ought to be impossible to make significant improvements in the purchasing power of Ftench wage end salary earners.

France's balance of payments deficit for this year bas been estimated officially at between 18,000m francs (about £1,500m) and 20,000m francs, although a calculation by the Organization for Economic Cooperation and Development has just revised this upwards to 30,000m francs M Wormser himself estimated that the promised social reforms —largely transfer payments to the less well off—would he equivalent to whar France will have to export plus certain eco-

nomy measures in order to finance its higher fuel import costs this year. The Bank governor is cridently well awars that en austerity programme might pro-roke social tansion. "Since

sary to insist on the political risks involved", he writes. "A society as divided as ours is illprepared to accept the serious difficulties which stopping infla-tion entails. On the difficulties which he

COUNTRY PROPERTIES

FRESSINGFIELD

A holiday dip in a sea of fine French wine

Our car had left Bordeaux and was speeding past vineyards with names like Rauzan Gassies, Palmar and Margaux, when the American huyer could contain herself oo looger and exclaimed in excitemeot: "Oh, this is where it really swings—we're beginning to see what makes it move." The Eoglish members of our party, who oad been maintaining a reverent sileo ce, looked and Burgundiens are warm horribly embarrassed by her people. They love to eat well and outhurst, but it pleased our host, whose family has heen con-nected with a distinguished wine for generations.

TO BE A CONTRACT OF THE PARTY O

for generations.

He liked to see enthusiasm ahout wine, and wished that more British, who he thought knew a lot ahout it, would stop at Bordeaux on their way south to the sea. My only comment after sampling the delights of Bordeaux and hurgundy is that the heach could he an anti-climax after a stay in the wine growing areas of France. areas of France.

My visit hegao with a flight to Paris and a fast, modero train to Bordeaux which arrived just in time for a glass of cham-pagne oo a chateau terrace before luoch.

It was during the meal that I received my first lesson in winetasting—oever eat salad or watercress with the main course. -the vinegar in salad dressing and the peppery flavour of watercress destroys the taste of the wice.

After lunch we visited Chareau Beychevelle, one of the prettiest in Bordeaux, ser among huge cedar trees, yellow and purpla pansies, and terra cotta statues. There the Maitra da statues. There the Maitra da Chai (the wine-making master) invited us to taste the new wine. Using a pipette, which is like a long glass phial, he gently inhalad tha wine. I never got the tasting hit quite right holding the young wine in your mouth and slurping it round noisily hefore spitting it out with confidence and ofteo at

The maitres are usually rosy cheeked countrymen who have been taught about wine by their fathers and grandfathers. Their jobs are demanding sod responsible, and often they must take major decisions about the vine yards in the owner's absence. Twice in their careers they are given the chance to taste the giveo the chance to taste the reserve of the chateau. By tradi-tioo, the first tasting is wheo they are fairly young and the second 25 years later. They tend not to drink moch wine—they find the taste and the smell is

und the taste and the smell is enough—and many drink light heer with their meals.

During the Second World War, the Germans occupied the splendid Chateau de la Riviere near the old towo of St Emilion. They harassed the Maitre de Chai, René Faye, about access to the cellars, and eventually found the door. Desperate to save his wines. René said with

settle in Somerset or Devon. Besune is robust and delightful

people. They love to eat well and the richer the dish the better.

This year the grapes were two weeks early so there was more than the usual anxiety for the first vital week in Mey in case frost nipped the precious grapes, hut André Gagey, managing director of Louis Jadot, was relaxed and philosophical.

"Wine is like a child". he said. "It is horn and then begins to grow. It matures and then a

Quite a lot of ballet history

For anyone who thinks about ballet as I do, which is hardly of half a dozeo individual ever, the sale of costume and décor designa at Sothehy's oo Thursday will come as a fair surprise. Auctioneer Mr Julian Barron expects to dispose of 180 lots for a total of ahout £50,000 io e hidding time of roughly two

Admittedly, the sale has some collectors' items including a pen and pastel sketch of the Madonna drawn by Nijiosky in the years after he had taken laave of the ballet and, some say, his seoaes.

It also includes oine desigos by Leoo Bakst, ooa of the maoy artists who worked for Dizghilev's ballet in the years hefore the First World War, and it is catholic ecough to feature designs f several designs by Erra and and of co othera for productions at the Folies Bergere between 1917 hidding.

Service Control of the Control of th

and 1939, as well as heavier, some might say more macahre, items such as the death mask of Fokine, to say oothing of e bronze plaque of what appears to he e lady discus thrower but turns out upoo closer examina-

tion to he Isedora Duocan.

Viewed in the cooservative surroundings of Sothehy's the owners) seems somehow untypi-cal hut there is now, as Mr Barron explains, a growing tradi-non of theatrical sales there: "Ever since the first Diaghi-lev sale in 1967 we've heen orga-nizing some kind of theatrical

desigo cr costume auction each year; admittedly we doo't get quite the same purchasers as for the Impressionists and the gallery people don't seem especi-ally interested, but the sales do attract people who know something about hallet and want to keep their memories alive. Often, costume designs are hought by the daocers for whom they were created, or at any rate their children. I try to limit the period so that we only deal with designs from about 1910 to 1935,

and of course any designs linked

to Diaghilev attract competitive

"He had a wooderful eye for design, you know; when it came to the final rehearsal of one of his hallets he'd line all the dancers up in their costumes and compare them to the original sketches. Often of coorse they weren't quite the same, and if you look at the photographs you'll sometimes see these very slender costumes heing worn by

frankly rather large ladies." But is there any sign that Sothehy's is running out of Diaghilev material, or the huyers out of nostalgia for the Ballets de Monte Carlo?

" Not really, though it's imporfrom the really important art. Picasso's designs for the hallet, or indeed Bakst's, are too important to be labelled souvenirs.

"But last year in the auction only three lots failed to find e hoyer, and oow with a oumber of oew museoms starting up, like the Theatre Arts in London and the Diaghilev in Venice, there's hound to be cootinued interest in these collections. The auctions themselves are some of the most highly competitive I'vc ever handled."

Yugoslav party congress reaffirms basic tenets of Titoism

Belgrade, May 26

For the sixth time since hia Communist Party emerged vic-turious from the Second World War President Tito will tomorrow open the party's congress which is expected to define
the country's political strategy
for the next four years.

The tenth congress of the

party opens two devs after the President celebrated his eightysecond hirthday. He has led the party without interruption since 1937.

Naturally the congress's attentioo will he focused oo succession. The present shake-ups, hoth in the party and state, ere primarily coocerned with making the system secure so that Titoism should coorinue after Marshal Tito is oo longer guid-

ing Yugoslavia. With ell the controversial political issues-like oationalism in Croatia and liberalism in Serbia out of the way, the emphasis will he oo consolidation and oo an even more vigorous reasser-tion of everything Titoism stands

Non-alignment, as the funda-mental tenat of Yugoslevia's foreign policy, and workers' self-management, a vital feature of Yugoslavie's internal system,

will receive special emphasis.

There is, therefore, oo reason to believe that the coogress will usher in any radical changes or decree any departure from the course established or the sixth cach of the six republics, and coogress when, at the height of two autonomous regions, which

conflict with Russia, the party changed its name to League of Communists to reflect its changing role. In spite of sporadic sethacks and retreats, the party is aiming for continuity.

The strains and stresses of receot years, when Yugoslavia suffered its worst leadership crisis, have, inevitably, encouraged those in the party who felt that the way our of the impasse these or return to iron discipline was e return to iron discipline. For a while it looked as if this view might prevail. Then the climate chaoged and the attacks began to centre oo neo-Stalin-

The resolutions which are to be presented to the congress leave oo doubt, however, that moderation is the trend for the future, and that while the centre will ha strengthened end re-organized, the party will oot return to the heavy-handed controls associated with the com-munist parties of the Soviet

There is a reorganization at the top in the offing, with the presidency of the Central committee reduced from the aresent 52 to 38 members. An Executive committee will also be elected by the Praesidium.

This will round-off the cycle of personnel changes which began earlier this mooth, when the new Presidential Council was elected. It consists of President Tito's oldest and most trusted assessment representing

have thus gained in importance. In the past cootacts hetween the federal and republican leaderships were weakeoed to a degree which threateoed the cohesioo of policy making, as well as the implementation of

policies The party's Executive Bureao did not have a clear picture of what was going on in individual republican parties, and debates oo various questions turned into monologues. However, the sito-ation has already been changed. Two years ago, President Tito personally intervened to topple Crostia's nationalistic-minded leaders; last year he intervened again and made the liberal Serbian leadership resign.

Great emphasis is laid oo Yugoslavia's unchanged position with respect to Soviet block parties. The Yugoslav state's positioo too remains uochanged in spite of the improvement io Yugoslav-Soviet relatioos. fact, the congress report insists on full respect for the country's independence and for its own brand of socialism,

Ona of the congress resolutions voices Yugoslavia's oppositioo to imperialism and neo-colonialism, which meaos mainly the United States. But the same seotence also condemos "hege-monism", which in Yugoslav party jargoo stands for Soviet endeavours to dominate the country.

THE ARTS

The Dance Theatre of Harlem

The Dance Theatre of Harlem, the world's only black classical hallet company, makes its first visit to London in a three-week season at Sadler's Wells Theotre heginning on August 5 and run-ning until August 24. Eleven ballets will be be given io three programmes. The first consists of Concerto Berocco, Le Corsaire pas de deux, Agon and Dougla; the second of Holberg Suite, Caravansarai, Afternoon of a Faun, and Forces of Rhythm; and the third of Design for Strings, Tones, Le Corsaire and Rhythmeteon.

Rhythmetron:
The Dance Theatre of Harlem was founded in 1968 by Arthur Mitchall former soloist with the New York City Ballet. He started New York City Ballet. He started the company by opening a douce school in a disused church in Harlem and this proved so successful that by 1971 it was neccessry to move to much higger premises. At present more than 1,500 students each pay \$1 a week to attend classes there to attend classes there.

The modern Tuscans

Siena is well known to lovers of pointing as one of the cradles of great Italian art, but comparatively few seem to know of the flourishing Tuscan school of modern painters. The Centro delle Arti di Siena was founded delle Arti di Siena was founded some 60 years ago and for the past few years has maintained a gallery showing the work of local artiots, most of it for sale, at Via delle Terme 45, only a stone'o throw from Il Campo. There are one-man shows, tha last of which was of Daniele Tonceili, who was born in Livorno in 1947 and who bas had several local exhibitions. He seems rather an ociectic He seems rather an eclectic painter but bis still-lifes of shells are strong and severe. In addition there are always two addition there are always two rooms of paintingo for sale ranging from work by the veteran Montagnani to that of young painters fresh from tha schools. The highest price, L2m, at the moment is for a landscape by Ciardo, and a Montagnani will set you back a single million. But most of the naint. million. But most of the paint-ings are in the range of £80 to

Giorgio Sacchi, toe centre has just launched an ambitious plan for a Museum of Modern Art in Siena and for a hiennale in the city. The project has the support of not only artists and academics but politicians and trade unionists and local authorities; the snag will he, as always, where is the money to come from. Anyone interested in the affairs of modern Siecese art should sub-scribe to the centre's admirable bi-mombly, Noticic d'arte. In the last number, the February one, are full details of the centre's hopes for the future.

Guy Manners

Queen's Hair The American rock musical Hair is to be revived in the West End. It will open at the Queen's Theatre on May 25 for a 14-week summer season. Hair will succeed the musical Bordello which on Saturday after a run of five weeks.

Performing as Mozart intended

Idomeneo Glyndebourne

William Mann

Opera companies all over the world are suddenly offering new productions of Mozart's Idomenen. Many of them seem only now to realize that this marvellous heroic opera is most effective when performed in effective when performed io one of the three ways actually intended by Mozart. Glynde-bourne, thanks to Fritz Busch, revealed this now obvious fact as long ago as 1950 to its aodiences, hammered the point gcotly bome for 15 years—pre-poring the way, no doubt, for productioos by Sadler's Wells and the English Opera Group,

perhaps companies abroad as well—and has now mounted a new production of the piece.

very different from the previous

one but no less handsome.

one but no less handsome.

To begin with the music: it is cooducted by Joho Pritchard who, os he told readers of this page a few days ago, helped to prepare the 1950 Glynde-bourne performances. He hao obviously studied the recent new edition to good effect, and conducts his blend of all three authentic versions with a fire and elegance that heor ont bis admitted adoration of the score.

His reading is on the fast side.

His reading is on the fast side, no bad idea in so dramatic an opera, though when be reaches music of particular richness, such as Ilia's "Se il padre perdei" with its ouadrnole obbligato wind, or the lilting maritime chorus "Placido è il

mar", or the solemn temple scene, we are not sware of spiendour heing taken for

Indeed the choral music, very important in Idomeneo, was powerfully and sensitively sung throughout. A note in the programme showed that Peter Gellhorn has returned to Glyndcoourne, after some years' absence, as chorusmaster; lucky Glyndebourne, sensible Mr Gelinoro, sioce opera was alwars his forte.

For the herefit of Idomeneo bufts I should say that Glynde-bourne again opts for a tenor Idamantes, giving him his roodo "Non temer" with solo violin and the soprano-tener duet io Act III, but not "nn, la morte". Arbaces is now properly assigned to a tener, and permitted his block. ted his third act oria, as well as the scene with Idomeneus in Act II tafter "non temer" which replaced it in Vienna. Alexander Oliver has the

musicality and stage presence to make something positive of this formerly supposed unimportant role. Mozart's other self-sacrificial cuts in the third act are restored, more rather than less, and so staged that soliloquies can be delivered without every-bedy else caresdropping.

John Cox, who worked with Carl Ehert on the earlier Glyndebourne production, is the producer of this new staging which is spare in the opera seria manner, gold boopo as a root, production of the control of the contro suggestiog a grand Nissen an emoty stage mostly, and cir-culor backdrops based oo paint-ings by Turoer.

That last idea sounded anaco-changes to come.

rotistic but works well: a modern production of Idomeneo cannot done to reproduce Homer's Crete, nor the Varesco-

Mozart-Quzelio impression, but Turner's Dido building Cartheze and Bay of Basac suit the music and drama, as does tless obviously) a portico at Patworth, and of course, Turner's monster on the frootgrop. Other details were invisible from the seats allotted by Glyndebourne to this newspaper, forward on the prompt side.

From these seats, as I think everywhere io Glyndebourne, we everywhere io Glyndebourne, we could hear very clearly. Here the ringing hur emmiocally, somenimes technically, inhibited singing of George Shirley as a more touching than hrilliant Idomeneus (he sang a mixture of the two versions of "Fuor del mar"), the strong but artistically rays (damantes of Kimmonly 1997). mer"), the strong but artistically raw Idamantes of Kimmo Lappalainen, the touching but wocally immature Ilia of Glenys Fowles, and (ales all ton obviously) the hell-for-leather vocal factics of Krystyna Kujawinska as Electra who seemed to glaze her strong, vibrant tones and theo carefully crack the glass ao detrimental to os as it must be to ber. os as it must be to ber.

The High Priest of Neptune is

The High Priest of Neptune is a role that we usually do not notice: John Fryatt makes sure we do this time. Textually this is the most gratifying of the recent Idomeneo productions, even though 1 wish James Bowman would consent to learn Idamantes (sopranoo are as uncatification. satisfactory as tenors in this excellent part). Vocally it leaves a lot to be desired, but there are more performances, and cast

Lord Hankey and his wife in their Coronation robes in 1953

Monday book

'Pocket Hankey' in decline

Hankey: Man of Secrets ... Vnlume three: 1931-1963.

By Stephen Roskill (Collins, £6.50)

Maurice Hankey's place in British history rests secure as one of our most remarkable civil servants. The first Secretary to the Cahinet, he took tha minutes at 1,700 meetings over a period of 23 years, spanning 13 administrations and seven Prime Ministers.

Prime Ministers.

The first two volumes of Captain Roskill's masterly, compelling biography tell the story of a rising star and of brilliant achievement. Sodly, this third and final volume of Hankey, Man of Secrets, is the story of decline. The years 1931 until his death in 1963 proved to be no golden afternoon for him.

And yet, it oeed not have been

And yet, it oeed not have been so: there was nothing inevitable about it. No man, with bis unique experience of the Committee of Imperial Defence and Lloyd George's War Cabinet, was better equipped to lead the drive for rearmament and the preparation for war in the 1930s. That there ivas neither lead nor drive owes something to Hankey's curious inability to muster interest in anything other than military or diplometic affairo: it owes something, too, to his failure to establish an intimate relation-ship with the three Prime Ministers he served at this time.

There is no hint throughout these pages of the great economic and social problems which beset the Cabinet that Hankey served during the years of slump and unemployment hefore the Second World War. A solithe Second world war. A sol-tary reference to the poor physique and under-nourish-meot of young men relates characteristically to their unsuitability for military service. Hankey found economics un-

coogenial. He never saw the cellor, nor did he bave much in common with Baldwio. Truth to tell, he was probably closest to Ramsay MacDonald. But the Lahour Prime Minister

was then in a state of physical and mental decline hecanse according to a throw-away foot-

with Sir Joho Ellerman and his homes d'affines might well bave ended in tragedy if Hankey bad succumbed to the blandishment of £5,000 a year from Ellerman's millions to cushion a somewhat precipitate retirement. As it was, Hankey—still at the time Secretary to the Cabinet—was instrumental in elicitiog several thousand pounds for Conservative Party funds.

Raldwin had promised Hankey: Articulation the structure is a Baldwin bad promised Bankey Articulation the structure is a

Baldwin bad promised Bankey as well-merized peerage, but it had unaccountably failed to materialize. Chamberlaio mao aged things better, ood followed it up by bringing Hankey into the War Cabinet in September, 1939. Nothing could bave been more inappropriote; he had neither the political skill oor the temperament nor the thick skin needed to succeed. The "unseeded to succeed to su loyal chatterbox.

loyal chatterbox.

That Churchill should have kept Haokey in his wartime administration for nearly two years is surprising enough; but hast Hankey obould have spect nearly a year plotting against his leader, at the height of the war, does count justice to Hankey Do you dote on your does scant justice to Haokey Do you dote on your hudgeri-himself or to the great service gar? Do you love that old which he adorned. rhich he adorned. motor of yours almost more than
It is a measure of Captain life itself? This little play last

Roskill's skill that at the end of it inight rested lightly ou a habit all we are still able to admire Hankey for what he hod been and feel rather sorry for him Hankey for what he hod been part of the family. Only this and feel rather sorry for him time it was a South Wales for what he had become. Mericulous in its accuracy, scrupulous the prize possessions were a in its fairness, this hiography is plann and a pony. oone the worsa for showing just. This play, however, which a little portiality to ito subject, was adapted by Elaice Morgan The "pocket Hankey" was not from a short story by George cast in the heroic mould, but he Ewart Evans, was the last in was a hig man for all that. There was much else to make the play a joy. The children minded their manners. The man and the woman knew each other through and through. And if you supposed that one at least of those price possessions. least of those prize possessions was lost, you should hove heard thot widow wondering finally if ingly authentic sense of time their piano might not find its end place and by casting so new quarters too damp.

Ajit Bhattacharjea on modern India's first Prime Minister, who died ten years ago today

Nehru's failure in the search for the best of all possible systems perquisites—took over the mansions vacated by the senior British civil servants who had left for home. Indians replaced provincial provincial

During his 17 years as modern armed forces, got as little recognition from him as the Gandhians who believed that the Jawaharlal Nehru was often Viceroy or the last Englishman of the Raj. This was not said derisively; it was usually an derisively; it was usually an ing her villages, not in aping the Western and Soviet craze for apid industrialization. expression of affectionate regard, if tinged with impatience.

Those who used the phrase were make hard choices. A helier in fairly sure he would not mind too much if be did chance to

Some reasons for the descric-tion are obvious. He represented many of the virtues identified with the ruling establishment of colonial Britain—which is not surprising in view of his affluent anglicized uphringing, with an English private tutor at home and formal education at Harrow and Cambridge before the First World War. His sense of history, his insistence on punctuality, his aloof hearing, his emphasis on morality in national and international affairs (not always practised), his belief in a acientific, yet hasically decent and humane rationalism, were all typically liheral upper-class British; as was his impanience with the messy rituals, tradi-tional fatalism and minimal civic awarenesa of mthooox India, Like sympathetic Englishmen helonging to the Indian Civil Service, the administrative steel frame of the Raj (which his cousins—one is High entered out he did not hecause his family wanted him home), he was more at home with its history and, at a distance, with

The similarity went deeper. Nehru's vision of indapendent India was not too different from that of the well-meaning, university-educated Englishman who had heen influenced hy socialist ideals and hegun to doubt his right to rule distant natives for all time. He was uncomfortable with any developcomfortable with any develop-ment that failed to fit this pattern. The ratings of the them Royal Indian Navy. whose mutiny in Fehruary, 1946 made mutiny in Fehruary, 1946 made the British Government realize that it could no longer rely on the loyalty of Indiaus in the mutiny in Fehruary, 1946 made religious, and voted against emptied of Hindus and Sikhs or Mualims, with no distinction the henefits of office, in s system in which the scope for pathagonal religious, and voted against emptied of Hindus and Sikhs or Mualims, with no distinction made hetween rico and poor, the loyalty of Indiaus in the

described, sotto voce, as the last country's future lay in revitaliz-He wanted the hest of all pos-

the unity of apparent opposites that ironically came from a school of Indian philosophy rejected by the Western rationalism that Nehru preached. It was the same approach that converted nonalignment from a hrillian strategy for new nations in a hipolar world into s moral doctrine for all occasions, with the implicit, and occasionslly overt, suggestion that countries entering into military allisnces were upprincipled. The ooctrine was rudely shattered when Chinese troops broke through the Himalayas in early December, 1962, forcing Nehru to seek military assistance from the United States. The Chinese withdrawal mada a formal alliance unnecessary and the preaching of nonalignment was

revived. But Nehru never re-covered fully from the shock. His belief that no choice was called for hetween psrliamen-tary democracy and a state dominated economy and aociety did not receive any such sudden challenge.
Even hefore Nehru died 10

years ago, however, statism and parliamentary democracy had begun to corrode each other. The economy received neither the pull of incentive and competition nor the push of compul-sion to make it work efficiently. As the network of licences and controls expanded, it came to be gradually dominated by a privileged coterie of ruling politician, senior administrator and favoured businessman, Only the mass electorate, in

economic exploitation, opeoed ths donr to corruption. And as election costs mounted, candidates and narries hecame in-creasingly dependent on funds provided by the corrupt husi-nessmen they were obliged to

Nehru's brand of Fabian socialism thus cecame toe higgest hurden on the parliamentary system that he had also valued so highly. The reverse was equally true. Choice was necessary, but the helief in compromise, the years of wishful thinking dressed up in moralistic phraseology had nurtured and even justified an stritude of indecision. This was to become the most aerious flaw in the machinery of government and politics in India as well as in other countries that followed her example. Independence in 1947 and

India's new elahorate republi-can constitution in 1950 left the hasic administrative and personnel structure unchanged even sonnel structure unchanged even down to those who had campaigned actively against independence—like Sir Girja Shaokar Bajpai who yet hecame Secretary General of Nehru's Foreign Office. The steel frame proved its value in emergencies by keeping the administration by keeping the administration going through the holocaust of communal killing that followed the partition of the subcontinent. with millions of terror-stricken refugees fleeing in either direc-tion across the new horder be-

Nehru's failure to foresee the consequencea of partition (unlike Gandhi who was in mourning on August 15, 1947) was an early indication of his reluctance or inability to recognize the traditional, instinctive, non-rational element in political and economic motivation. Ee prefarred wishful thinking clothed in spite of its illiteracy, lived up to the faith placed in it. Again and again it rejected extremist month after entira districts in appeals, whether ideological or the divided Punjab had been

tween India and Pakistan.

happening now is to a large extent an upheaval of the lower middle classes . . . Undoubt-edly there has been a communal trend in what has happened, but the trend now is away from killing and towards increased looting....

During this period of emer-gency, the steel frame was still holding up a pre-independence style of government. Instructions came from an Emergency Comcame from an Emergency Committee which superseded the Cabinet, and was headed by the Governor-General, Lord Louis Mnunthatten, not by the new Prime Minister. But how would be the committee the committee of the it function in normal times in s poor country committed to par-liamentary democracy? Nehru

ronage steadily expanded and the demand for efficiency and productivity was associated with my socialist background, what is more concerned with order than with democracy), again pre-

ferred to see no conflict.

The steel frame, whose strength lay in keeping a superior distance from those in ruled, was expected to become an anonymous civil service on the British model that executed the policies of the oarty in power. At the same time, it would provide the top administrative management for the expanding nationalized sector that was the central feature of Nehru's economic planning. Politics and administration were seen in separate compartments on the colonial pattern. But the imperiel administra-

tive machine could not he taken over without retaining its values, customs and attitudes. The choice of the last Viceroy, Lord Mounthatten, to be the first Governor-General of an independent India, set the seal of continuity on the transfer of power. He is said to have advised the fledgling government to take over the pomp and splendour of the Raj as a means to preserve authority. to preserve authority.

Even when republican India's

Even when republican India's first President, Dr Rajendra Prasad, took office the impress remained. The Viceroy's imposing palace which Gandhi wanted to see converted into a hospital for the poor, togethar with New Delhi's other imperial monuments became the President Control of the President Co monuments, became the Presi-dent's house; the Viceroy's body-guard, complete with livery and pennants, became the President's hodyguard; the Viceroy's coach and six remained the state coach for cersmonial occasions. Nehru's commitment to equaheart's commiment to equa-lity and Westminster-styls democracy was put in cold storage. No unobtrusive 10 Downing Street for the Prime Minister. He moved into the

second most imposing imperial residence—the walled off house of the Commander-in-Chief of the imperial forces in India. Other ministers, unwilling to live more modestly than their civil service secretaries who

left for home. Indians replaced regional controls became Englishmen as provincial methods of rewarding friends governors hut retained the same palaces and imparial retinoe. The district administrator contributors and contributors. Yet that the district administrator contributors in which Nehru and his tinued to keep his distance from colleagues lived enabled them to tinued to keep his distance from those he governed. The colour of the ruler's skins had changed, but their style remained the same.

In the name of accialism and self-reliance, the Nehru Government atarted out on a policy of expanding its influence, directly or iodirectly, on the economy. At the same time legislation was enacted assuring labour rights and privileges comparable to those obtaining in the most industrially advanced countries. But there was no parallel attempt to create a work ethic through education or an emphasis on productivity. The multi-psrty political structure ruled out coercion and the Congress Party had no cadres to impose discipline. Unionized labour began to prosper and exert its strength until it even gained the right to a yearly home irrespec-tive of productivity or the profits made by the company. But it represented only a fraction of India's workers, the majority paid the price together with the rest of the country and hlamed the Government which bad weakened the habit of self-reliance by portraying develop-ment exclusively in terms of governmental assistance

Step by step the millions of rupees poured into steel plants, industries, dams, and power projects yielded fewer and fewer returns. Taxes and inflation rose steadily, thus reducing even further the desire to save and invest-except in areas outside

official scrutiny.
Corrupt husinessmen pros-pered, but paid no taxes. Black (untaxed) money hegan to finance a parallel economy which operated more and more openly as the ruling Congress Party turned to it for the funds required to finance increasingly were guaranteed their pre-expensive election campaigns independenca level salaries and and to keep local party hosses in

colleagues lived enabled them to commit the country repeatedly to accialism Nehru refused to recognize

Nehru refused to recognize these abuses and reacted angrily when they were brought to his notice. His aftention was fecused on setting up the machinery of nationalized industry, brespective of the cost, in the firm Marxist belief that once estandished it would set the wave and lished it would set the pace and human beings would adjust themselves accordingly. Educa-tion received the lowest

Even his commitment to the parliamentary system was inhibited by his desire to set the economy going in the direction he visualized. Having established a model system of elections for a largely illiterate country and instilled a respect for parliamentary rights and privileges. he ntilized—or allowed his lientenauts to every trick in lieutenants to every trick in the book to ensure that no serious opposition emerged to the Congress. No limits were placed on collecting election funds (on a scale that parties with no prospect of obtaining office could not hope to equel) or on tempting members of the opposition to cross the floor. It was only after he died and some legislators hegan to desert the Congress that attempts began to discourage " defectionism".

Lal Bahadur Shastri, who suc-ceeded Nehru as Prime Minister, was beginning to move away from some of his more impractical policies and attitudes when be died at Tashkent in January, 1966. Mrs Indira Gandhi was also involved first in finding her feer in administration and then in ejecting her rivals from the Congress to question the Nehru inheritance, which, to begin with, was her main qualification for office.

sale trade in foodgrains but before millions starved prices skyrocketed becans corrupt and incompetent off Corporation of I proved unable to do the Industrial licences are b issued more freely and set controls have been li Foreign investors are being vited to explore for offshor on terms similar to those r ted as a sell-out to Wes monopolists when offered b American company soon : Mrs Gandhi took office.

Outbreaks of violence in n parts of the country indicate strains posed by scarcity inflation. Prices are at lea: per cent higher than a year But it should not be forge that these are primarily u reactions. Tha villages, in w so per cent of the popul, still lives, are not quite so ive. A L Rowse further explores the remarkable history of Lord Byron's Cornish relatives

Passion and misery in the strange affair of Medora sess Georgey's own copy, with Childe Harold ceased to strike to become a mother" again-

One day some years ago, in the dining-room of an hotel along the Great North Road, I looked up to see the self-same Medusalike bead that had looked down upon the fatal marriage of Byron to Annahella Milbanke on that snowy New Year's day, 1815. There it was, blank and uncomprehending, in the decorative cornice that had been removed from ber home, Halnahy Hall just up the road. It gave one a strange thrill to realize what it strange thrill to realize what it was and to think of the train of events that day set off: they did

not seem so far away.

Everything sbout Byron is touched with strangeness—one of the sources of the irresistible attraction people found in him, and still find today. His was a radio-active peraonality that had shattering effects on all who came in contact with him. One sees it at work in the next generation as well as in his own.

There were no fewer than four Byron-Trevanion marriages; they seemed bent on marrying cousins and this doubled the Trevanion strain, somewhat lost to view through heing on tha female side, though no less strong for thst. Byron, his half-Augusta and Colonel (she was determined to marry him, waiting three years hefore he could do so) were all grandchildren of old Sophia Trevanion We know what s fixation Byron had on his half-sister and everyone considered that her third daughter, Medora— named after a character in The he was writing at the time-was

We can now observe the same ohseasive fixation working it-aelf out in the next generation, in the passion Medora and her consin Henry Trevanion had for each other. Catherine Turney tells the story, from the English and French sources, in her book. Byron's Daughter recently published by Peter Davies £3.78. There remain the Cornish

to Medora, wholly unsympathehe bas to be coosidered and the passion was mutual.

to her: sbe had more than a soft spot for the young man and may well bave seduced him. She always defended him in the complications that ensued; Colonel Leigh detested Henry he disapproved and was jealous. Since Augusta was s lady-in-walting to Queen Charlotte, with the wedding took place in the Royal chapel on Fehruary 4, 1826. It was not two years aince Byron's death. Nobody in cither family attended, except Augusta and Medora. There was no money as usual and, as usual in the family, Lady Byron was called on to provide the wherewithal. She lent the young couple a house she had leased near Canterhury; Aug-usta, like the "goose" she was —by which endearment Byron

was known-was soon pregnant. Unfortunately she had little interest for Henry, though he gave her three daughters. Georgey seems to have heen dull, and rather afraid of heing left alone with Henry; they could not get on and hoth were glad of Medora's company as a aafety-valve. To Henry she was more: with her Byron dark hair and sexual temperament, at 15. he found her all too attractive. Henry Trevanion had intellectual pretensions, as we see from the volume of verse he

tic to Trevanion—perhaps her name written thus in it. understandably; all the same, Three years before Henry hao been the only member of the family, along with the Colonel, to attend the melancholy funeral procession of his cousin to the vauit at Hucknail Torkard. The little volume reflects something of the mights. Dassion was murual.

The awkward thing was that

Henry had been married off to

Medora's eldest sister, Georgiana. This was Augusta's doing

dearest Moe" as be wrote something of the mighty shadow cast by the dead poet, though on the eighteenth cen-tury moralizing side of bis work: this, together with the "sensibility" which Jane Austen mads fun of in ber novel contemporaneously, made up Trevanion's poetic persocality. A prose argument prefaces the work. "The disposition of youth to engage unsdrisedly in friendshipa. The idefficacy of public or private tuition to avert

the evils . . . to invalidate the temptations of sin. The tendency of a career of ain to deaden the sensibility of our affections." Hs deplored "too frequent contemplation reverses sustained by the virtuous and the triumphs of the The consequently vicious. increased influence of temptation and the miseries from yielding to it. The prohability —by which endearment Byron had called her—sent Medora that repeated afflictions will annihilate the kindly sympathies of our nature. The passion Georgiana-Georgey aa sha excited by trifling annoyance; fatal consequence of yielding to it, as operating on the heart: exception, BYRON. Tranquillity

of mind attainable only by the Such was the moral, enforced in rhymed couplets: "Oh! woman! jewellen iink
of being's chain,
First dream of love, last object
of disdain, Sad is the storm, o'erwhelming is the sea. Courae from thee: But all must be forgotten, all produced next year. The Influence of Apathy, and other Poems. published by Longman in 1827. Nohody seems to have read it for the light it throws But Anathy, for him who seeks

But Anathy, for him who seeks on earth for peace".

Attached to the poem is a saries of references as pretentious as that the young Eliot attached to The Waste Land. Not only are Herodotus and Plutarch cited, there are esoteric quotations from Popilius Laenaa (who ever he was), Papirius, St Snpistratus; Gihhon, Locke and to ahnw how up-to-date he was Trevaninn's fellow. Celt. sources; she is very sympathetic on him. It happens that I pos-Trevaninn's fellow · Celt, Chateauhriand,

The second section consists of personal poema on love and friendship, one to L.E.L., the notorious poetess whom knew : these are pale imitations of Byron, with a tribute:

Upon his grave untuned it

And astions came there to Ent mortal hand would not

Upon the strings to play.

Several poems refer to calm summer seas, or the "little barks gliding over the slumbering wave". One thinks of the old houss at Caerhays, just them heing transformed into a romantic castle by Nash, looking down the cover and the one sear upon the cove and the open sea heyond.

One poem is addressed "To J. T—n, Esq. On his Singing". This is evidently Henry's elder hrother, John, the heir to Caer-hays, whom Byron knew. In April 1808 Byron was writing, "I have been introduced to Julia Byron by Trevanion at the Opera; but I do not admire her, there is too much Byron in her countensnce. Another grand-daughter of Sophia, she was ton clever, which Byron considered a very great defect in s woman, becomes conceited in e". Shades of poor Annawho bella and the fatal marriage to

For all Henry's praise of apathy, he was anything but apathetic in bed. Georgey was not only pregnant (again), hut so was Medora and the neighhours at Canterhury were heginning to talk. Lady Byron was not without ber intelligence system; Augusta had neither intelligence nor an intelligence system and "did nor appear to have a suspicion of any kind. The youthful menage popped across the Channel, where Medora gave hirth to a boy—to Henry'a further grievance against poor Georgey who gave him only daughters. The child was put out to nurse and shortly died. All three trooped back to England, without a penny to

less them.

Medora, now 16, took refuge

Moe " at St with "dearest Moe" at St James's Palace, where "Mr Trevanion came very often, almost daily, to visit me, and his visits were not in any way dis-couraged hy my mother." They spent a good deal of time reading the Bible together, for Augusta delighted in giving Bibles to everybody—she had given Byroo one, which he took everywhere with him on his travels. Besides Henry was rather raligious.

At New Year 1831 Medora to the extravagance of his father discovered that she was "likely in huilding the castle and

bless them.

she was not yet 17. Henry took laudanum before disclosing "the fatal cause of my misery". All lay-

Augusta's sympathies were with poor Henry: "you know how I have loved and regarded you as my own Child—I can never cease to do so", etc. For ber own erring child there were only religious. religious reproaches: "yon know that I confidently hoped and intended you to be confirmed this Easter. I suppose it is now hopeless—consult your own heart and wishes. I hoped to be able to prepare you suffi-

some Clergyman were to assist in this ". Augusta's easy-going nature had opened the way to all this-it had been one of her chief thad been one or ner chier charms in Byron's eyes, that and the fact that she didn't argue; hut their daughter couldn't have a baby in St James's Palace. Henry and his wife were taking a house outside Bath, quarrelling

more thao ever; Georgey needed Medora as a huffer, Henry needed her as something The deleterious trio all were installed together, when Colonel Leigh descended on them and carried the erring Medora off to a hide-out near Regent's Park, where pregnant girls of good family could have their habies hehind locked doors and harred windows. This time Medora had a stillborn child. Henry was not giving her up

he planned to abscond with her France, leaving Georgey behind. They lived together in Prance for several years, under the name of Monsieur and Madam Anhin. Henry would have got a divorce if he could; since proved impossible, Medora joined the Catholic Church. Wa gather that " Henry was sexually hisessed by her and that she responded with equal passion ". There were frequent miscarria ges; Henry was very keen to have a healthy living child by her. They opted to settla by the little town of Carhaix in Britany

the same as Carhays, or Caer-hays, in Cornwall whence his family had drawn their sustenance for some five hundred years.
The finances of his family

-oddiy enough: was Henry drawn by the name? For ir was

employing Nash to do it. This was John Trevanion Purnell Bettesworth, born at Caerhays in 1780, who took hack the Trevanion name by royal licence in 1801. He was tha heir to Sophia's older sister. It is provoking to think that if Sophis had been the elder, Byron would have been the heir to the Cornish religious reproaches: "yon know that I confidently hoped and intended you to be confirmed this Easter. I suppose it is now hopeless—consult your own heart and wishes. I hoped to be able to prepare you sufficiently myself with the help of reading—but now I feel it would be a great satisfaction to me if be a great satisfaction to me if the sea port.

The senior branch at Caerhays

as staggering dizzily to something like rum. The Cornish tradition is that Nash tried the experiment of papiermaché for roofing, so that the rain poured in; an expensive wall to bold up the hill-side garden collapsed and had to be rebuilt. I bappen to possess this I bappen to possess this auction-catalogue of the Trevanion estates when they were put up for sale. One of tha manors was up in the moorland behind St Austell; in time it turned out to be solid china-clay —they would have made a mil-lion out of it I John Bettesworth Trevanion left the home of his ancestors and died-in some

shame, I hope in Brussels in 1840. Out of the proceeds the family managed to continue, but dispersed. His eldest son married a Trelawny Brereton; his son married Lady Frances Bowes-Lyon, daughter of Lord Glamis
—Queen Victoria raised her to the rank of an earl's daughter. The family continued, but the lands had gone for ever.

Some driblets of money came through from Augusta to Medora, but not enough for her

and Henry to liva abroad in any comfort or security. Medora thought of giving herself up to religion and renouncing the flesh; she entered a convent nesr Carhaix in the hope that "I might in some way be able to conceal the delicate state of my health, which forbade the hope that the child would live." When the sbbess found out Medora's condition she had to find other accommodation out-aide. On May 19, 1834, a daughter was born and regis-tered as Marie Vlolette Trevanion. This child lived to witness her mother's odd fate and, after her death, retreated to a convent at St Germain where she

against an unpleasant and dis-turning announcement which

was on the warpath, regarding Medora as responsible for leading him astray. Henry's uncle was dispatched to Carhaix, only to find that the birds bad flown. They had found refuse in an old They had found refuge in an old tumbledown château called Penhoer, near Moriaix. Medora wrote hlissfully, we continued to live in a secret and unfrequented spot. Henry at this time gave himself up wholly to religion and shooting; I to my child? At home all this led to mutual

recriminations between Augusta and the Trevanious, Henry's rather could allow him only £450 a year, while Augusta was left to support Georgey and her three little girls as best she could. None of them seemed to hava any money-sense-unlike Byron and Annabella. strain of it all made Medora seriously ill, in addition to which she was denying Henry her bed after her conventual experience, This was more than the Trevanion temperament could stand: he took to a mistress, whila Medora took her case to a local doctor. To the local people there was a mystery about the couple, with their aristocratic looks and manners in such squalid circumstances. Medora told her story to the sympathetic doctor who got in touch with her grand relations. This made Henry mad—and jealous too: he suspacted the doctor's intentions, both sexual and financial -so like Henry, himself neurotic and over-sensitive. There was a breach; Medora was virtually destitute. After a decade of mingled passion and misery the ffair was at an end. What was

At this juncture Lady Bycon came forward as a dea ex machina. She was now 48 -Ada, her daughter by Byron, happily married; Aunabella had time and money on her hands, had never ceased to love Byron, lived in the shadow of his memory, with a kind of love-hate fascination for the Byronic. Moreover, she longed for love; she proposed that Medora should live with her. Unfortunately no one could love Annabella. The experiment was a failure. The only good thing that resulted from it was Medora's friendship with Ada, who treated her as a sister. In spite of all the comforts and security of life with Lady Byron, Medora wanted only to fly out @ Times Newspapers Ltd,

Medora to do?

Meanwhile Henry's parent of the gilded cage. She ins on going back to France, I Byron insisted on putting h charge of a couple of serva she ohviously bad no confid in Medora's being able manage for herself.

Why was the Army not used to break the Ulster stranglehold? apparently knowing full well that by that time ha broadcast not the slightest action would have been taken. The SDLP was today saying that General King had refused to risk a confrontation with the Protestants. Something which the Army Dower was so erest that of the loyalists. British suthorities a 24-hour Ireland, but the Cabinet decided A mysterinus and ea yet unexultimatum to take action against none the less that action should

Belfsst, May 26

plained change of orders for hundreds of British soldiers in Belfast did more to hring the Northern Ireland Executive to its knees this weekend toan any other event. On Friday night, Mr Brian Fsulkner's Protestant and Roman Catholic ministers were assured by the Government that troops would be used in the province to maintain vital supplies of fuel, thus hreaking the power of the "loyalist" atrikers. On Saturday morning, the mili-tary operation actually began in embryo, but by this morning not a single petrol tanker hed come under military protection, and the mildest of Stormont ministers was referring with venom to " perfidious Albion ". The Executive had seemed

full of confidence on Thursday

night. Faced with a city in which its influence and power

the stopnage. On Priday morning, Mr

Faulkner, his deputy, Mr Gerard Fitt, snd Mr Oliver Napier, the Minister of Law Reform, set off for Chequers to discuss their ultimstum with the Prime Minister. Also present was Mr Merlyn Rees the Secretary of State, and those leaks that have since come from the Executiva suggest it was a friendly discussion, in which Mr Wilson exercised some degree of honhomie and agreed that action should he taken against the strikers to show that the Executive atill bad British hacking. There is a rumour in Belfast that Geoeral Sir Frank King, the GOC, also flew to Chequers for

the talks, but whether this is

company of troops—100 men from the 1st Battalion The Queen's Regiment—had been placed on board the old naval vessel Maidstone barely 500 yards from the petrol dumps, true or not, the involvement of troops was hotly debated in the Westminster Cabinet a few hours and these men were alerted on Saturday morning. But further which its influence and power had ceased to exist—by the later. According to sources at strikers and the Executive eighth day of the strike, the loyalists controlled virtually every facet of daily life—the three Executive parties gave the supplies around Northern speech on Northern Ireland, orders never came. While the strikers and the Executive

Late on Friday night, this was confirmed when one of Mr Faulkner's ministers received a

telephone call at his home from the British suthorities, saying dent of breaking as trike, the general—according to the SDLP—felt he could not allow the Army to be shot at by both sides in Ulster. If this view existed, however, it has to be balanced against an undecent and discourse and di that the Army was to go into the oil supply depots within hours. He went to bed, satisfied that the British were sticking to their word, and early on Saturday morning a convoy of Army trucks was seen heading towards ths perimeter of Belfast docks, where Esso and other companies have their storage facilities. Already on Friday afternoon a

came from the Ulster Workers' Council on Friday evening. Mr Sammy Smyth, the UDA spokesman in Belfast, was the man who issuad the UWC statement after the Chequers talks had concluded—and the mes-sage was simpla: if the Army tonched the petrol dumps, senior technicians would be instructed to walk out of the power stations. There are 250 military technicians in Northern Ireland at present, hot it hecame known last week that without the help of the most skilled workers at

so far not left their posts—the Army could not keep the power supplies going.

It has also been calculated by this authorities that within hours of a total power failure, acknowledging the strength of the loyalists. Apart from creating the prece-

something which the Army might just not be able to prevent, civilized life in Belfast would hecome almost imposaible. The water would stop running, food would rot in the shops, the communications system would collapse, and the sewage-without pumps to maintain the disposal system—would begio to bubble up through tha drains. A considerable part of the city centre might also flood hecause the shopping streets near the cross-channel docks are almost at sea level.

Was it this terrible image changed the Government's mind? On Thursday, before the Chaqoers talks, one aenior British Army officer—General Sir Peter Hunt, the Chiaf of the General Staff—paid an unannounced visit to the Army in Ulster. Did be discover the electricity plants who have then the void into which troops appear tomorrow.

power was so great that o occasion a Unionist mi could not even get to w. War. Stormont relephoned his home to say that the cha. driven cars had run or h petrol. He used his own. O. occasions, Mr Paddy Devli

Lord Chalfont's column

WARNING FROM THE NURSES

nurses have enjoyed a deal of public support in current pay dispute with the rnment. Their case is a g one and, even though they not been given the ediate rise which they seak, idependent inquiry is to he into their claim. That is not enough for some of them. Confederation of Health ce Employees is pressing l with its campaign of indus-action. Its effect will rently be confined largely to natric hospitals and it is not orted by other unions and ing organizations. But it is principla that matters. It ; questions for the nursea selves and for society at

is essentially for the nurses cide whether any action that I be acceptable to their conces would be a more effectives. weapon than relying on the ort of public opinion. That ort would he put in jeopardy, he public would come to look the nurses in a completely

different light, if disruption were pushed so far as to inflict real suffering on patients. But if that were to happen more would be lost than public esteem for the nursing profession.

Printing House Square, London, EC4P 4DE. Telephone: 01-236 2000

One of the conditions for a stable society is that a number of people doing skilled and responsihle work should be prepared in take part of their reward in public respect and the intrinsic satisfaction of the job. That is true not only of nurses hut of other paramedical professions, probation officers, police, teachers and a host of social welfare workers, to take a few of the more obvious examples. It is not likely that the not likely that the pay in any of these occupations will ever he high enough to attract sufficient people of the right calibre for that reason alone. They must be ready to give overriding priority to their professional duty even, if necessary, at some financial sacrifice. But already the teachers have shown that they are no longer prepared to accept this traditional discipline, the civil

servants have been flexing their muscles, now we have some of the nurses, and thera may be other exceptions to the old rule still to come.

It is no use simply wagging an edmonitory finger. The necessary restraint will not be shown in a materialistic society if the financial sacrifice demanded is ton great, and especially if it seems that one person's sense of responsibility is another's wage increase. The difficulty is all the greater at a time of rapid infla-tion when it appears that an exercise of industrial muscle is required simply to stay where you are. This action by the nurses may be unnecessary and irresponsible. They should be able to get a fair deal without it. But it should be a warning to the rest of ns that there is more to incomes policy than holding the miners and the engineers in check. On social grounds it is equally necessary that those in lowly paid hut highly skilled occupations should feel that their pay is determined by means that are fair if not generous.

TO PREPARES TO GO

future of Yugoslavia could an important hearing on the re of Europe. Geographically politically she is delicately sed hetween east and west. loss of halance could have e coosequences—at least as e as those that followed her iance of Stalin in 1948. Presit Tito, whose personality and stige have provided cohesion r all these years, is now preing the ground for his own arture. Nohody can tell at point whether he will succeed what he ta trying to do. Some ple fear that as soon as he is e there could he civil war ween Serhs and Croats. Some ect Soviet intervention, either t or covert, to draw Yugoia into the Warsaw Pact. ara are confident that the sures heing taken hy Presi-Tito himself and hy the y Congress which opens today keep the country on an even

ne only certainty is that a cult period lies ahead. Tens and uncertainties have al-

three years. At one point President Tito aeemed to be going hack to something resembling the Stalinist disciplines of tha past. There were party purges, trials, and dismissals of well-known writers and academics. The nationalist aspirations of the Croats provided the cue hut the net soon spread wider. Now there has heen some rethinking, and in the appalling terminology of the party the fight is simul-taneously against "hureancratic-dogmatic tendencies and forces on the one hand and anarchicalpetit-bourgeois and pseudo-liheral tendencies and forces on the other ".

There is no doubt that the main tendency is towards righter central control and a reaffirmation of "democratic centralism" in the party. Yet this is to he com-hined with an attempt to develop the system of workers' self-management so as to give the workers more power, particularly over investment, where the hanks had assumed more and more and uncertainties have alimportance. Whether these two surfaced over the past aims can be combined is, of

course very much open to question, hnt at least the new Consti-tution, promulgated with much publicity, maintains Yugoslavia's tradition of seeking her own uniqua solution to modern proh-

The immensely elahorate new

system of delegates from base organizations is supposed to give the people a new form of representation in their triple capacity as producers, consumers, and members of political organizations. It may all turn out in practice to be a vast façade, or it may provide an example that will influence other left-wing countries. In either case it will he watched with interest, not least by the Russians, who have recently heen doing their hest to overcome the bitter suspicion with which they are regarded by a great many Yngoslavs, particularly those with memories of 1948 or 1968. The fact that the Russians are attending today's party congress, after boycotting the last one, is a significant measure of that interest.

HE WAYS OF THE ISLE OF MAN

e Isle of Man enjoys a special stitutional status : how satisory does this seem in the rmath of the report on Summerland fire? Many of lessons to he drawn from the rt are relevant far beyond the of Man; to architects, to agers of public huildings, to e who develop and promote huilding materials. But the active and probably deterng factor in this story is the re of the public authorities e island to control what they set in motion.

e island's parliament has passed somewhat stricter lation on fire safety in public lings (though it includes no latory regularions for hotels omission likely to have its effect on the tourist trade). memory of the tragedy ld ensure a more rigorous cation of the rules. But the also throws light on some e special problems that face communities that seek to :lf-sufficient in the modern The historical quirk that has the Isle of Man and the nel Islands a status dependent on the Crown but outside the United Kingdom creates a very pleasant way of life, but one with certain limitations and dangers. Tha Isle of Man and the Baili-

wicks of Guernsey and Jersey have their own legislatures whose in Council almost, but not quite, automatically. Westminster is in charge of foreign affairs, but its enactments on domestic matters apply to the islands only if their own parliaments decide that they should. In theory, the Crown's sovereignty remains and the British Parliament has the power to intervene, hut in practice it doas not. In effect, the islands pay their way and rule themselves. The Manx have no breathalyser, they hirch young offenders and they sentenca murderers to death (although, having no gallows, they do not execute them). In some respects, they are idyl-

lic examples of small-scale selfdetermination. Their inhabitants are mostly well satisfied, and so are the tourists who pour in every summer and keep them prosperous. Taxes are low and most social services ara comparable with those on the main-land. If there is a slight tendency for the representative institutions to have an oligarchic air, the oligarchy is henign.

But there are disadvantages.

The alarm a few years ago about the Treaty of Rome, and the Tynwald's dispute with Whitehall over Manx Radio, showed that it is less easy these days to draw the line between internal and ex-ternal affairs. The small-scale intimacy is hard on those who disagree with the general mnodand this can he a source of danger when the disagreement is over a matter of public interest, and an official decides to stifle his doubts rather than offer unpopular advice. The evidence of complacency and confusion in the Summerland affair obviously falls far short of the kind of failure that should cause Parliament to look again at its custom of not interfering, but it is a hitter warning to the islanders, in their preference for self-sufficiency, not to despise the skills available on the mainland.

Westmioster end Stormoot
lecide who should work, who
deat, and who should go about d eat, and who should go about eaceful busioess in a province e of the most highly developed cracies in the world.

Wilson did not, of course, call colitical strike in bis hroadcest would be accept that description rents from Mr Heath io the e of Commoos on Tuesday. If, aid. Mr Heath drew any lel whatsoever between what is oo in Nortbern Ireland-intition, clubbing, threats to wreck ship which remains open to ly food, interference with food, he rest of it—and anything that ened on the Industrial Relations it proves once again that he not understand the trade union-ment of Great Britain, and he pirnost suggested that he does inderstand what is going on in hern Ireland".

there is a circumstantial parallel. In Northern Ireland, violence has bred violence, and argument proceeds on the methods of a Sichian blood feud. the methods of a Siction blood feud. But of course it is a political strike, in which trade union shop stewards and members have challenged the authority of the lew, and also rejected the authority of their trade unions. They are using their industrial strength to force from government a political objective.

ment a political objective.

That is the essence of the political strikes or political campaigns that organized labour increasingly resorts to, whether the target is the Sunningdale agreement, incomes policy, the Industrial Relations Act, the closure of a shipyard or a factory, or the reconditioning of Rolls-Royce engines for the Chilean air force. The fact that the Ulster Workers' Council is delying a Labour Government, that its methods would normally he described as a fascist by Labour politicians, and that Mr Len Murray, the general secretary of the TUC, speaks in Belfast without any authority—none of this alters the political murive of the strike.

Leaders and followers of UWC are

Leaders and followers of UWC are carrying to a vicious extreme a dangerous trend for which British trade union leaders have provided a model, often with the full support of the Parliamentary Labour Perty and men who are now ministers. Nor do I think the trade unions carry the whole blame. Trade union defiance of the law took a new and more serious turn during the years 1966-70, when a Labour Government, floundering in economic difficulties, began to impose curbs on the trade unions with first an incomes policy and then Mrs Castle's In Place of

It was one thing for the trade unions to fight the employers, with the Government standing on the sidelines as umpire and conciliator; it was another thing to find themselves fighting a government, and a government they regarded as their own creation or creature at that, nern Ireland.".

erc was no parallel, said Mr
in. Nobody could argue that own treation of treatme at that, with 00 third party to whom they could appeal. They had no choice but to lose their reason for being or

to fight government; and they fought the Labour Government until the policies were abandoned. But the battle could not be fought once and for all. When the Conser-

once and for all. When the Conservatives returned to power in 1970 they were on a policy escalator, and the Industrial Relations Bill was brought in m resume the chellenge to the trade unions. The prices end incomea legislation that Conservatives upposed in Mr Wilson's time was also revived. Nothing hed changed, except Mr Wilson and the Labour Party. A trade union movement that had tamed one Government committed itself to a campaign to tame its successor, and et least

meot committed itself to a campaign to tame its successor, and at least succeeded in getting Mr Heath out and hringing Mr Michael Foor into the Department of Employment.

The lesson taught to militant trade unionists was that defiance of Parliament, the courts, and the rule of law could succeed; and that if government legislated without carrying trade union asseot, then it had to be challenged by direct action, with or withour support in Parliament.

withour support in Parliament.
There are also lessons to be learnr
by governments and politicians if
parliamentary democracy is ro survive, and Northern Ireland, with the dengers at their most extreme and acute, illustrates that where there is no acceptance of government there is is nothing left hut force in one form or another. Law and order must be made to prevail, meeting force with force, but the only permanent answer is for law and order to be accepted for its own sake as the necessary coodition of civilized and democratic

British trade unionists could undoubtedly have set a better example in recent years, but more important may he the question whether governments and Parliaments, pursuing the interests of a disembodied state, have here sight of the needle who confident lost sight of the people who confide power and authority to them. Tha state is everybody and therefore is increasingly seen to be nohody; and in the ruin, terror and misery of Northern Ireland today we see the consequences carried to a bloody extreme.

Helping deprived children

From the Warden of Toynbee Hall Sir, The Youth and Community Bill is to be welcomed for the emphasis it pleces on giving information and advice on careers and occupations and on the welfare services, and its and on the welfare services, nod its recognition of the special needs of young people who suffer from mental and obysical disabilities, ethnic minorities and those susceptible to criminal or other anti-social influences and the importance of providing housing for homeless

young people.

For these services to he effective specialist appointments will be neces-sary, otherwise there will cootinue to be inadequate provision of experts in direct and accessible contact with the young school leavers and the delinquent fringe who may not, because of their experiences and limitations, find adult orientated services easy to understand. The generic youth and community workgeneric youth and community workers already appointed and eovisaged in the Bill have too wide responsibilities to give these services themselves and they are oot ooes that can necessarily be provided oo a partime basis to give adequate service. The Government, therefore, must be prepared to consider increasing staff to cope with these specialist areas.

The Bill, however, does not effectively meet the needs of yoonger children. The permissive responsi-

tively meet the needs of yoonger childreo. The permissive responsibilities for making provision for those under the age of fourteen are likely to continue to be largely ignored.

Many children, and particularly those who live in densely populated rundown urban areas with inadequate housing, poor schools, and who have parents who are overwhelmed by the problems poverty creates, are deprived socially, culturally and educationally. The high rate of truancy at an early age indicates that the sense of failure and rejection at achool, alienation from parents, teachers and society start sooner achool, alenand from parents, teachers and society start sooner than can he coped with by a Youth and Community Service. What appears to be required is a specialist service catering for these younger children. The emphasis perhaps should be on educational activities, emplementing the work of the supplementing the work of the schools, particularly in remedial edocation, so that their prospects of achievement and social adjustments

are made easier. There are more children in the age range five to 14 than between 14 to 21 and they spend more of their time out of school than in it. There are some voluntary organizations and local anthorities that make adventure playerounds, arts workshops and holiday play schemes available, but in urban areas too often there are in urban areas to differ their ale insufficient facilities. But what is more important is the oeed for a coordinated service which sets out to make proper provision for the leisure time needs of young children. Yours faithfully, ANTHONY LOCKE, Warden,

Toynbee Hall, 28 Commercial Street, E1.

Diet and heart disease From Professor John Yudkin

Sir, As a nutritionist, end as one whose main research interest for many years has been the study of the relationship hetween diet and heart disease, I am writing to express my great concern over the recent broadcast by BBC television of the programme "Cross your heart and hope to live".

With so important and emotive a subject as heart disease, it was

subject as heart disease, it was obvious that there would be a vast and unusually attentive audieoce for and unusually attentive authoric for this programme. My own immediate impression was that the chief message remaining in the minds of the viewers was the almost impera-tive injunction that, if they wished ro reduce their chances of getting a heart attack, they must reduce their consumption of eggs, butter, milk and cheese. And since the broadcast this opinion has been contioually reinforced by the large number of people who have spoken to me or written to me ebout the programme.

The fact is that the role of diet

in producing heart disease, and thus the changes in diet that might lessen tha risk of developing heart disease, constitute one of the most vigorously dehated subjects in medicine today.

In particular, many believe thet there is good reason to doobt the hypothesis—and it is only an hypothesis—that implicates foods such as eggs, milk, cheese and butter. These happen to be among the most highly any interiors foods that we have

nutritions foods that we have.

It was reprehensible, our to say irresponsible, for the BBC to have broadcast this attempt to indoctrinare people as if this hypothesis were an indisputable truth, and thos to encourage them to reduce the outri-tional value of their diet by giving

up these excellent foods.
Yours faithfully,
JOHN YUDKIN, Emeritus Professor
of Nutrition, University of London,
15 Holly Walk, Hampstead, NW3.

Human rights

From Professor H. W. R. Wade, QC Sir, It is lamentable that our domessir, it is jamentable that out domestic law of fundamental rights is not raised at least to the level of our international obligations. Professor Robertson (May 20) has aprly pointed out how the express sale guards of the European Convention on Human Rights could have helped the court in the case of the Greek shipmaster (The Times, May 11)— though fortunately in that case the principles of natural justice covered the same ground. But so Inog as our European commitments are not in-corporated into our internal law, they are of little use as such to liti-

gants in our courts.

The gap should he closed as a matter of principle, but there would be practical advantage also. If the European Cooveolion could be enforced in British courts, there would be less likelihood of the British Covernment being a contract of the British Covernment being a contract of the British Covernment being erument being arracked in inter-national proceedings in Strasbourg or (as recently) Stavanger. It would be altogether better if these important legal questions could be adjudicated by our own judges, at any rate

in the first instance.
This is one of the many arguments for a Bill of Rights dealing with something more topical than the abuses of the Stuart kings. Yours faithfully,

H. W. R. WADE, St John's College, Oxford,

LETTERS TO THE EDITOR

Standards in local government

From Mr Stephen Haseler Sir, Yout leader "Local Interests" (May 24) which comments upon the proposals of the Redcliffe-Maud Committee's report on local goveroment corruption is to be welcomed. as indeed is the report itself.

I personally see no objection to your idea of a local government in-spectorate, although I would demur from your notion that it should be uoder central government control. It would be much more effective if your proposed inspectorate was in-dependent of all bureaucracies. Thar apart, however, could I make

a comment upon the proposals of the Redcliffe-Mand Committee which may need to be further considered. First, it ought to be more widely appreciated that we on the Greater Landon Couocil have already put in the control of the committee of the council have already put in the council that already put in the council council that already put in the coun Lundon Conocil have already put in operation a register of members' pecuniary inverests which was agreed by the whole Council some months ago and which is now working. We felt it necessary to set this up in advance of any recommendations from the Committee hecause of the undoubted public disquier about the abuse of authority. We initiated this long before any of the current stories regarding the North East broke into the national consciousness, and for a perfectly proper reason, namely, ro respond to public feeling.

It ought to be stressed however

It ought to he stressed however that the public's suspicion abour cor-ruptioo—faooed as it is hy individual ruption—taooed as it is by individual court cases and by a seosationalized media—is not wholly justified. The vast majority of local government officers and members are hard-working public servants who have denied to them much of the gravy and perks that go into the private corporate sphere. As far as members are concerned they often, io order to properly fulfil their elected duries, sacrifice promotion and advance-ment in their own careers. Local government may be rather ton much upon the defensive at the moment and it ought to be pointed out tout the public, press and television seem to expect standards of those in oublic life to be significantly different from those within the big corpora-tions that have as much effect upon all our lives as do, say, the new regional authorities. Up until recently we have even refused to pay anything by way of allowances to

elected members.
At the root of the problem is, of course, Britain's traditional adherence to the cult of the "amateur" in politics. Regional Councillors, who carry for more responsibility than Members of Parliament, are expected by many to he unpaid Lord and Lady houorifus rather than profes-sional politicians able to exert political control over the huge and niten unmanageable local and regional ureaucracies.

By all means let us adopt the Com-

mittee's recommendations, but in do-ing so let us not get the question out of proportion. There is a degree of hypocrisy contained within the view that a county councillor should be that a county coefficier should be under greater public scrutiny than a company executive or manager. This hypocrisy is compounded wheo we are also expected to exert proper political control over our local and regional machines whilst still holding down our own oormal employment. Yours faithfully.

STEPHEN HASELER, Chairman, SIEFREN HASELEK, Chairm General Purposes Committee, Grearer London Couocil, County Hali, SE1. May 24.

army patrols of Catholic districts?

With Mr Beckwith's central thesis however—that Government policy has floundered partly hecause of misunderstanding of the people's feelings—it is hard to quarrel. One could mention three more factors of the Ulster Procession of the Ul

of the Ulster Protestzor coosciousness which have been given ton little attention in policy-making. I mean: (a) the intense mistrust of

Confusion in N Ireland

From Mr Christopher Burdon Sir, The Reverend R. T. Beckwith's "repeated though brief visits to Ireland" (Letters, May 24) seem to have left him with different impressions from those my similar visits have given. Perhaps this is not surprising in view of the present social and political confusion in Northern Ireland; hur the arguments he uses to bolster these impressions ara surely open to question.

The Civil Rights movement, which Mr Beckwith considers mainly in its role of "stalking horse for the IRA", drew world attention to the gross discrimination which was a direct result of half a century's "mainly of the contury's "mainly of the contury of the conture of the "majority" government. For these wrongs to he righted, for the Catholic population's faith in government to he necessary than reluctantly passed legislation against discrimination. The abolition of Stormant proportional representation. mont, proportional representation and power-sharing were oot gratui-tous extras imposed by a lily-livered Parliament.

The issue is considerably confused, I feel, by use of the terms "majority" and "minority". There is no real parallel with Rhodesia, where the majority is so much greater than the minority and where it is the latter which is in power; and it must always be remembered that in the whole of artificially that in the whole of artificially partitioned Ireland the Catholics form an easy "majority". The British Government is not upholding the right of a "minority" to dictate to a "majority" in Northern Ireland. aoy more than it is in Rhodesia. It is upholding the principle of government by and for both "majority" and "minority", albeir with little success. And what is the Government's

"kid-clove policy towards the IRA", which Mr Beckwith bolds responsible for the present troubles? Is it typified by Loog Kesh? by the constant

the "Free State"; (h) the mistaken belief, only now disintegrating, in Eogland as the hastion against the Vatican; and (c) the very long history of religious hostility in Northern Ireland and the mythology that has accrued to it. Yours faithfully, CHRISTOPHER BURDON. College of the Resurrection, Mirfield May 24. From Mrs Joan Little

Sir, Many people will eodorse the commeous of the Wardeo of Latimer House (May 24) on the intensity of "passive sympathy of the population" for present conditions in Ulster due to the strike.

"Good children are seen and out

Ulster due to the strike.

"Good childreo are seen end oot beard," except by God. There are many of us to Ulster now, particularly women and children, Christians and likewise, brought up to work bard, to practise moderation to all things, and to expect leisure with pleasure only in measure of our diligence. We recognize the creative cultures of our geographical oeighbours in the South, and would seek hours in the South, and would seek to share them further. if only we were not so possessed of a fear that hard-won standards of everyday life would be adversely affected.

We seek a care from the oowers that be; we do not feel victimized other than in being denied a hearing, or a counting. Yours faithfully,

JOAN LITTLE, 70 Beech Hill Park West, Belfast.

Young offenders

From Mr David Mathieson Sir, A great debate bas just begun about bow we should deal with our young adult offenders, ie, in the 17-21 age range. The dehate has been initiated by the report just published of the Home Secretary's Advisory Council on the Penal Sys-

This report, which has been eagerly awaired for some time oow, is important hecause it focuses oo the acknowledged fact that our present system of dealing with young adult offeoders is so obviously failing. It is costly and has a high reconviction rate, therefore, we must

search for something better.

The report proposes that more young adult offenders should he dealt with in the community—and that, in cases where a custodial sen-teoce is imperative, the young person should he released on licence as sooo as possible. Supervision of offenders in the community is the responsi-hility of the Probation and After-Care Service, therefore probation officers are deeply involved in the implications of the changes proposed in this report.

The report makes it quite clear that, if young offeoders are to be that, if young offeoders are to ne supervised to the community rather than be kept locked away in insti-tutions, the public will demand that probation officers exercise very close and intensive supervision, even to the puint of having the power to have the young offenders put into

custody. Prohation officers, who are traditionally committed to a cariog and helping role with offeoders, are understandably concerned about the fundamental change in their role which these proposals could bring about.

The National Association of Probation Officers, which speaks for the Probation and After-Care Service, will give full consideration to the report. The Home Office has promised full consultation with the association hefore any oew legislation is envisaged; in fact, such consultation would be an absolute pre-requisite of any developments, for prohation officers are the people who would be most actively involved in any new forms. forms of supervision.
All those concerned with the penal

system must now engage in a full and honest dehate about the respective roles of care and comrol in our dealings with young offenders.

NAPO will enter fully into discussions in a desire to find a new and a hetter philosophy and method of dealing with our young adult offen-ders. In this context, when the Home ders, in this context, when the Home Secretary reconstitutes his advisory council in the near future, he may find it helpful to include, as well as judges, lawyers, politiciaos and academics, some representation from prohation officers themselves.

Yours faithfully. DAVID MATHIESON.

National Association of Probation Officers. 5 Derby Lane, Liverpool. May 21.

Flags of convenience From Mr C. H. Blyth

Sir, We were interested to read lo your May 22 issue the report by Mr Peter Strafford on articles in the New Yorker magazine by Mr Noel Mostert on tankers and pollution. We are in complete agreement that countries in the main oil consuming areas should impose rigorous stundards on tankers bringing oil to their terminals and that tankers he severely penalized, or not allowed to enter port, "unless they meet high standards of safety, operation and crew health". Further, that they should be subject to scruonlous examination on arrival in port ".

We were especially interested in end gratified by references to super-tankers under flags of convenience "manned by improperly trained and uncertified crews navigating with defective equipment because, as is geography known throughout the maritime world, this organization and its maritime affiliates have long

campaigned (with very little sopport from shipowners, underwriters, governments) agaiost flags of convengovernments) agaiost flags of conven-ience, and the deplorably low stan-dards of manning, equipment, main-tenance, working conditions for crews, supervision etc, which obtain in buodreds of vessels flying one "convenience" flag or another.

The high incideoce of marine casualties under these cheap flags, which has resulted in heavy loss of life amoog seafarers, bas been a tragic fact of maritime life for many years but still government authorities of large trading nations who could introduce measures at little expense considerably to reduce the worst abuses and increase safety at sea decline to do so. Yours truly,

C. H. BLYTH, General Secretary, International Transport Workers Federation. Meritime House, Old Town, Clapham, SW4.

The law affecting press freedom

From Mr R. M. Taylor Sir, Winding up the debate on tha press last week the Prime Minister said: "It may be right for us to proceed on Franks and Younger together. Perhaps we should also together. Perhaps we should also think of proceeding on Phillimore and Faulks at the same time. The advantage of linking these issues together would be that it might help us to secure improvements in the ability of the press to get at facts essential for its readership—that means all of us—and the conduct of public affects while at the same of public affairs, while at the same time protecting the individual from undue intrusion. Perhaps we can work out the whole thing against

work out the whole thing against the hackground of the four reports."

This is the statesmanlike approach. Though there is undountedly scope for dehate on whar constitutes "essential" facts, it is right that the whole hody of law affecting press freedom should be examined together. It has been the piecemeal approach of the past which has helped to create the necessity for these four important investigations.

How absurd, then, that the House should be about to consider in com-

should be about to coosider in committee at this same time a privare member's Bill which would limit in certain circumstances the defences available in an action for defamation !

famation!

The Rehabilitation of Offenders Bill has already prompted an interim report by Mr Justice Faulks's Committee which states:

"In principle we view with disfavour the creation by this Bill of a special class of person about whom the truth caonot safely he told after a specified period. We think ir is in the public interest that truth should at all times remain a defence in at all times remain a defence in actions for defamation. It is in our view wrong in principle that a man about whom the truth is told should he entitled to damages on that

accouor." The Bill was given an almost ecstatic welcome hy Mr Alex Lyon, Minister of State, Home Office, on Minister of State, Home Office, on secood raading, though he conceded that the defamation clause would require "a good deal of discussion in committee". Nevertheless, ha rejected Mr Justice Faulks's suggestion that the clause should be omitted: "If that was so the Bill would be without meaning."

Mr June arriver at this conclusion

Mr Lyoo arrives at this conclosion by a precess of thought that seems lamentably lacking io logic. "Is it right", he asks "that in this community what has been true in the scose that a mao has been convicted should he regarded for all practical porposes as untrue?" And he supplies his answer: "I think that that is right. I take the view that truth is right. I take the view that truth is not any more paramount than any other principle of civilized conduct in a civilized society. There is also compassion and understanding."

It is precisely because there is compassion and understanding that one would not wish to oppose the hooest intention of this measure, but if it makes truth less than of paramount importance it has all the

paramount importance it has all the

paramount importance it has all the makings of a rogue's charter, whatever good it may achieve.

We submit that, with a comprehensive review imminent, if not precisely peoding, the whole question would be hetter left until then.

Yours faithfully, R. M. TAYLOR, Chairman

Archbishop's election

From the Revd Dr Hamish F. G.

Swanston Sir, Wheo Dean Alford wrote anouncing his intention ro vote against Reno Dickson Hampdeo at his election as Bishop of Heraford he had only this reply from the Prime Minister:

Woburn Ahbey, December 25, 1847 Sir, I have had the honour to re-ceive your letter of the 22nd instant, in which you intimate to me your intention or violating the I have the honour to be your

obedieot servant, J. Russell. It is pleasant to be assured that Canon Rohinsoo (May 20) will be spared such a rehuff.

Yours faithfully, HAMISH SWANSTON. Eliot College, Uoiversity of Kenr at Canterbury. May 20.

Support for euthanasia From Mr Malcolm Muggeridge

From Mr Malcolm Muggeridge
Sir, I quite agree with Christopher
Price (May 24) that Richard
Crossmao, as Leader of the House,
had a lot to do with the passing of
the Ahoroon Act. There is a sentence of his I hava cherished, and
which, I think, well exemplifies rha
spirit in which he steered it through
Parliament—"Better the liheral
eliteism of the statute book than the
reactionary populism of the marker
place." It is the very doctrine of
consensocracy. consensocracy.

If ir is really true, as Mr Price claims, that support for euthanasia in the Parliamentary Labour Party is minuscule, and that there is no possibility of its heing legalized under a majority Labour Government, no one will be hetter pleased than 1. We shall just have to wait and see. Yours, etc, MALCOLM MUGGERIDGE

Park Cottage, Rohertshridge, Sussex.

An artist and his levels

Patcham,

Brighton,

From Mr R. T. Cowern, RA Sir, Last week in Whitebaven a young lady of some 10 or 11 years, watching me at work on a drawing, watching me at work on a drawing, provided an unconscious postscript to a controversy which has vexed art education and which was recently reflected at some length in your columns. "Do you", she said, "have to have 'O' levels to do that?"

Yours faithfully,

R. T. COMEDN R. T. COWERN, Church Lodge,

The Prince of Wales will arrend the observance for Commonwealth Day in Westminster Abbey on June 14.

Princess Anne as president of Save the Children Fund, will attend an international exhibition given by Spink and Son on June 4.

The Duke of Kent will take the passing out parade at Cransell, on June 28.

The Duchess of Kent, as patron, will visit the offices of the Children's Film Youndation at 6-10 Great Portland Street on May 20. Princess Alexandea, as charcellor, will preside at degree congrega-tions at Lancaster University on July 3 and 4.

Birthdays today

Service reunion

10th Princess Mary's Own Gurkha The Regimental Association of the 10th Princess Mary's Own Gurkha Rifles held its annual reunion in London on Saturday.

The usual cause of death in cholera and similar diseases is the enor-mons loss of water through the gut.

Some American scientists have discovered another possible factor in these diseases: a dangerous sensi-tivity of affected organs to hor-

mones, which may explain tissue damage in Escherichia culi gastro-

camage in Escherichia culi gastroentecitis.

Cholera, caused by the bacterium Vibrio choleae, is endemic in the
tropics but has been virtually eliminated in Europe. Escherichia coli
(E coli), however, a bacterium that
normally lives harmlessly in the
gut, is occasionally transformed
into a harmful strain that can cause
a disease very like cholera. Virulent forms of E coli are often responsible for food poisoning and
"traveller's diarrhoez", which
are transmitted by food and water
contaminated with faeces.

When the bactecia from the contaminated food or water reach the

taminated food or water reach the gut they make a toxin. The toxin reverses the normal flow of water from the intestines into the surrounding cells, and causes the cells to lose water into the intestines.

The toxins do not enter the cells surrounding the intestines. Instead they attach to the curside of the cell and that attachment indiates

the synthesis of a chemical cyclic AMP, inside the cell. The increased amount of cyclic AMP somehow

Lord Raillien and Bliss C. M. Ladd The marriage took place on May 25 at the Church of St James-the-Less, Nutley, Sussex, between Lord Baillien, elder son of the

Lord Baillieu, elder son of the late Lord Baillieu and Mrs H. A. R. Dodd, of Nutley, and Miss Cornelia Masters Ladd, daughter of Mr W. Ladd, of London, and Mrs Blanca Masters Ladd, of Washington and Buenos Aires. The Rev James Kelly officiated, assisted by the Rev Gordon Rideout. Out.
The bride was attended by Mrs

Stephen Buston and Miss Olivia Wells. The Hon David Baillieu was best man to his brother.

Mr T. H. Carew and Miss L. Lubbock

The marriage took place on Saturday at St Mary's. Woodbridge. Suffolk, of Mr Thomas Henry Carew. secund son of Lientenant-Commander the Hon Peter and Mick Commander the Hon Peter and Mest Carety, Croft House, Great Bealings, Woodbridge, and Miss Lucinda Lubback, woungest daughter of hir and Mrs J. G. Lubback, High Blass, Waldringfield, Woodbridge, Canon P. Wansey infliciated, assisted by Canon T. Waller and the Rev G. Steven.

The bride, who was given in marriage by her father, wore a gown of Thei silk with a silk net vell and corned a bouquer of lities-of-the-velley and roses. Miss Philippa Gorney, Miss Sarah Kaye, Emmy Corter and Elena Parenzi attended her. Mr Robin Chute was best man.

A reception was held at the home of the bride and the honeymoon is being spent in Portugal.

Cerent G. Wachingeister The marriage rook place on May 25 at Drietningholm, Sweden, he-tween Count Gustaf Wachtmeister and Mrs Anna Edicisicy.

The Lord High Commissioner and Lady Bailantrae
The Jord High Commissioner and Lady Bailantrae yesterday held a diooer at the Palace of Holytroodbouse. Among the guests were:

The Lord and Counter of Elem and Elemand Lord and Lord and Lord and Lady Counter of Elemand Market Lord and Lo an offence, but the bride and bridegroom will not be liable to penaldes.

The Opposition strenuously op-

posed the Bill on the grounds that all races deplore mixed marriages, all races deplore aixed marriages, that the percentage of such marriages in the total of marriages of Europeans is decreasing steadily, and that the Bill is therefore unnecessare. They also pointed out the difficulties of deciding in "border-line" cases, in which nodus responsibility would be thrown upon marriage officers.

Science report

Gastroenteritis: Hormone upset link

causes the cell to excrete instead of absorb water.

This intermediary role of cyclic AMP fascinated Dr E. L. Hewlett, Dr R. L. Guerrant, Dr D. J. Evans, and Dr W. B. Greenough, of Johns Hopkins University and the Baltimore City Hospitals. An engrances among to research in

the Baltimore City Hospitals. An enormens amount of research in the past few years has shown that cyclic AMP has a similar intermediary role in the action of many hormones. A hormone attaches to the surface of a cell, causes cyclic AMP to be made, and thereby alters in some way the reactions inside the cell.

Dr Greenoogh and his col-leagues wondered bow the bacterial toxins might aftect the

action of hormones on cells since

Mr J. A. F. Luttrell and Miss A. G. Cazenove

The marriage took place on Saturday at All Saints. Cottesbrooke, of Mr Julian Luttrell, younger son of the late Mr Geoffrey Luttrell and me Jate Mr Geoffrey Luttrell and of Mrs Geoffrey Luttrell, of Dinster Castle, Somerset, and Miss Anne Cazenove, daughter of Major and Mrs Philip Cazenove, of Cottesbrooke Cottage, Northampton, The Very Rev S. J. A. Evans officiated, assisted by the Rev R. Chevne.

Chevne.

The bride, who was given in marriage by her father, wore a gnwn of parchment-coloured silk trimmed with lace. Her family lace veil was beld in place by a tlara and she carried a bounguet of white lifes. John Sebastian Nicholl, Annahel Bowman-Shaw, Kate Serpison-Erooke and Lavinia Cox steended her. Mr Neville Bowman-Shaw was best man.
A reception was held at the home of the bride and the boney-moon is being spent abroad.

Mr B. R. Van Cliet and Miss J. Chazanof

and Miss J. Chazanof

The marriage took place on May
26 in the Washington Hotel Chapel,
Belle Harbor, New York, of Mr
Barry Robertson Van Chef, twin
son of Mr and Mrs Daniel Good
Van Clief, of Esmont, Virginia,
and Miss Jeanne Chazanof,
younger daughter of Mr and Mrs
Jack L. Chazanof, of Woodmere,
New York. New York.
The bride, who was given away The bride, who was given away hy her father, was attended by her sisters. Miss flene Sandra Chazanof and Mrs Alvin M. Mendel, Jr. Lieolenaux (J. G.) Daniel G. Van Clief, Jr. twin brother of the bridegroom, was best man and Mr Jan Courtlandt and Mr Alan Sterling Van Clief, brothers of the heidegroom, Mr Michael, Peter Klitenick and Mr Alvin M. Mendel, Jr, were groomsmen.

A reception was beld by the bride's parents at the Washington Hotel, and the honeymoon is being snent in the Bahamas. They will live in Florida.

Dr Ramsey analyses Christian conflict

Correspondent

The conflict within Christianity

The conflict within Christianity between those primarily concerned with spiritual matters and those primarily concerned with spiritual matters and those primarily concerned with spiritual matters and those primarily concerned with justice and pulities was in unreal distinction which missed the significance of the Gospel, the Archbishop of Camerbury, Dr Ramsey, said in East Berlin on Saturday. He was lecturing at the start of his first visit to East Germany.

Neither pierism nor activism did justice to man's true relationship to God, he said. "God cares about every part of the life of the world and would have his children find him through their service of one another, while he is to be loved in himself and for himself as the goal of man's existence." There is a tension ", Dr Ram-

"There is a tension". Dr Ram-aer said. "between those who give aer said. Detween these who give the primacy in the worship of God, in liturgy, prayer, cultus and contemplation, and those on the other band who say that the primacy belongs to the practical service of humanity and that in this practical service the Christian's encounter with God is supremely to be found.
There is, secondly, the tension

"There is, secondly, the tension between those who emphasize the saving of souls by the Gospel of Christ in personal conversion and those who emphasize the promotion of the kingdom of God in the social life of manking. The antithesis between worship and service and the antithesis between saving sunls and remaking aodety are

today, and are sometimes as divisive as the familiar divisions berween Catholic, Protestant and

Octhodox." The God which man worshipped was righteousness and luve, and man's worship of him, if it was to be true worship, would overflow to the practical service of humanity. Without that practical service the worship would be unreal. Dr Ramsey quoted words of Archbishop Temple: "It is sometimes said that human conduct is primary and that worship is important as a being to right conduct. The truth is that worship is primary and human con-duct tests it."

Dr Ramsey went on: "There have been those who say that true prayer is to be identified with the encounter with buman signations, that in this encounter God is met. and that prayer, contemplation, and that prayer, contemplation, liturgy, and cultus are irrelevant or at least secondary to the true God-mao relationship. I believe God-mao relationship. I believe that this trend is sometimes a protest against a conventional and leen all too possible for Christians to picture to themselves a God who is concerned with the sphere of religion rather than a God who is concerned with the market-place, the factory, and the whole range of human life.

"In fact, neither pleasan nor activism does justice to man's true relation to God, for God cares about every part of the life of the world and would have his children

find him through their service of one another, while be is to be loved to himself and for himself as the author of good and as the goal of man's existence.

man's existence.

"There is sometimes a minister of the Gospel who preaches salvanion by faith in Christ crucified, and who dwells non the conversion of individuals in personal constctions. Yet both the preacher and the people may be blind to some of the ethical implications of the Gospel which lie very near to them.

"I recall congregations of de-vout Christians who, being white in colour, might be amagonized by the presence of black people with them at the Lord's supper. I recall them at the Lord's supper. I recall congregations who are unaware that any problem of conscience is created for them when they are themselves affluent while near by there may be people in desperate need and poverty. It is no answer to reply that spiritual things must come first and that souls must be saved. The question arises in critical minds: 'Saved for what?' "On the other hand there can

be the minister of the Gospel whose mind is filled with the problems of poverty, injustice, race and social welfare. He preaches about these great questions, and be organizes muvements to promote the causes of social justice. But sometimes the people are not led to repent of their own sins, or to learn to pray and to bave communion with God himself. Personal conversion is replaced by zeal for social justice, and the kingdom of beaven is vir-

tually identified with the promo-tion of an egalitarian society."

Dr Ramsey said that Christ's mes-sage was one of deliverance for oppressed humanity. The semmon in the synagogue at Nazareth began with the picture of the Messiah as deliverer drawn from the book of Isadah: "The spirit of the Lord is upoo me, because he has anoimed me to preach the good news to the me to preach the good news to the poor. He has sent me to proclaim release to the captives and recovery of sight to the blind, to set at liberty them that are oppressed, to pro-claim the acceptable year of the

Dr Ramsey continued: "It is therefore right for Chistian people to strive for justice for the poor and hungry people in the world, for the abolition of discrimination between races in any society and for the human rights of freedom of npinion and of belief and religion. The kingdom of God upon earth includes the rule of God's righteousness in every part of human life, and Christians affirm this whenever they pray 'Thy king-

dom come '.
"Thus Christ is the liberator. "Thus Christ is the liberator. But the liberation which he brought was more radical than the brought was more radical than the brought political or social movement whether in his own day or in our own. He did not identify himself with any of the political movements of the time, for his deepest concern was with the liberation of man himself from selfishness and sin kno the life of love and self-sacrifice which was and is his own gift to those who will receive it from him."

bacterial toxins might affect the action of hormones ou cells since both toxins and hormones cause cells to make cyclic AMP. If toxin and hormone bind to the same site on the outside of the cell, then toxin might prevent the hormone from having an effect on the cell, by blocking its binding site. To find out if that was the case, they studied rat fat cells. These are stimulated by adrenaline to make cyclic AMP and thence to begin the breakdown of fats into energy. Dr Greenough and his colleagues first showed that becterial toxins had a similar effect on rat cells as on cells Three demonstrations show their value to farmers

is heard there. Farming involves much more than these, as I found

A demonstration in London is a A demonstration in London is a cattle ruck outside the Ministry of Agriculture, a pig loose in Downing Street or an incursion from the North and West threatening to cut off the country's supplies. In the country it is another plies. In the country it is another thing and cuts across the political lines to much more purpose.

There were three sucu demonstrations last week in the east of England, all heavily attended, all only incidentally concerned with the politics of agriculture and widely different in their objects. The first was concerned with amenity in the context of a successful commercial farm, the second with maintaining fertility on e marginal soil, the third with the techniques of sugar beet growing oa heavy clay. The weather for the second and

third was not pleasant but this in no way detracted from the num-her of people attending It was merely a marter of more gumboots and heavy coats.

The amounty exercise, in whose organization county planners, the

One penalty of trying to assess

The moods include remnants of the original forest cover and plantations of the late eightcenth cen-

A feature of the district is its A reasone of the district is its bedgerow trees, mainly oaks, which are nearing the end of their lives. Many of the bedges are going, es fields are enlarged to suit modern machinery, and the trees with

On this site four miles of hedges On this site four miles of hedges bave gone in reducing 109 enclosures to 49, and more than 80 acres of scrub woodland has been cleared. But there remain sufficient hedges and residual woodland as well as river meadows and pasture, to provide a variety of habitats for wild life and game. Part of the exercise consisted of a thorough investigation of what is growing and living in it. growing and living in it.
Suggestions have come from this for new planting and for the most effective management of the woods and the bedges in the interests of their wild accounts.

and the Dedges in the interests of their wild innants. Perhaps the most valuable feature of the day was that it indicated to farmers what they might find on their land

Agriculture Leonard Amey

and bow they could reconcile effi-ciency and landscape.

Later in the summer another tour of the farm is planned for a selection of non-farming visitors, concerned more with amenity than food production to give them the food production, to give them the farming point of view. In a countryside increasingly populated by uon-agricultural residents this should be just as useful.

should be just as useful.

The second demonstration was at Troston, on the edge of the Breckland, in West Suffolk, Much of the 780 acres of the farm is on bight blowing sand reclaimed from beath and is of inherently low fertility. The main cash cropa are bariey for seed and sugar beet, with heef cattle, sheep and baren pig heef cattle, sheep and bacon piz nterprises.
Although the demonstration was Although the demonstration was sponsored by Eastern Coonties Farmers, who buy the seed grain, and ICI, who sell the farm large quantities of fertilizer and other chemicals, what was being shown was the value of the grass break and

quality of the land. On the better land there is a six-year rotation with two years in grass for the sheep; on the middle quality one of fite years, with imilian ryegrass for seed and for sheep; and on the light land one of seven years, including the seven years. including a three-year lucerne break couled for winter beef

farmigated manure to put stability in-to a marginal soil. Some of the sugar beer was as good as I have seen anythere this year and so were some of the winner barleys.

Ruef bad shown increasing profitability until last year, when for the first time gross margos were negative. However, it is still planned to increase production and to bring in silage maize as a contribution to balanced winter feeding. ing.
'This year's national sugar beet

this year's national sugar beet damoastration was on heavy land in west Cambridgeshire. Barley and sugar beet have suffered this sming on the clays, and the roop there was so far delayed that an extra open day has been arranged to have for challens in see the June for ciators to see the effects of experimental treatments.
A succession of heavy showerstopped most of the machines working, but for most of those present they were not unwelcome.

Beet on heavy land in perticular hadly needed some rain to get it moving. Mr Oswald Rose, British Sugar Corporation's agricultural seen anywhere this year and so were some of the winner barleys.

The fertility build-up depends on three rotaticus, each adapted to the orought ceased would there be the prospect of even an average crop in 1974.

In 1974.

He added that this was the most difficult spring for sugar beet since 1947. although for different reasons. In that year a prolonged bard winter was followed by flooding and it was impossible to drill the seed before late April and early May. The summer was both hot and dry and the Speciers. and dry and the final crop light. This year March drillings were easy, but the dry weather with cold nights which came later delayed germination. Even now patchy rows are starting to fill out with small beet, producing the "hen and chicken" effect which does not make for a good harvest or high sugars.

high sugars.

Added to this has been an unprecedented amount of damage by
birds and field mice, which have
acquired the art of digning up
pelleted seed and cracking it to get
at the kernels. Their arresides get at the kernels. Their appetite, it seems, is remarkable. A caged mouse at the Brooms Barn experimental station not through 1,000 pellered seed in one night without apparent ill effects.

Only three first round matches

were played in the mea's singles.
The big surprise was Panatta's defeat by el Shafet, ranked 59th in the world standings. The Italian, who beat Romanie's Ilie Nastase in

year, is ranked 15th.

Panatta won the first set 6—3
and it looked as though his sustain-

ing power in the rallies and his accuracy would bring him the others. But it was clear from the start toat el Shafei's service was

going to be a strong asset. It came over with such force at times that

Towcester

Miss Heldman played a loose first act. But she won the second, which lasted 49 minutes, by making an immense effort of mind and muscle and displaying a tactical cuming that tested Miss Wade's mental and physical fitness. The emotional strain of winning that set was such that Miss Heldman's concentration insigned on a rest centration insisted on a rest.

While she was thus vulnerable, Miss Wade increased the pressure to take a 3—0 lead in the third set at the cost of only three points. That was too big a handican for Miss Heidman to shoulder though the remaining games all worst. the remaining games all went to deuce and Miss Wede needed five match points in a nerve-racking finish (which, until the last point was over) she enjoyed less than Miss Heldman. Peterson makes dramatic impact in old model

The 30-year-old Swede escaped ahead of a mnitt-car collision on the opening lap which eliminated five cars on the spot and sent a further three limping back to the pits to retire. He then went in pursuit of the leading Ferraris of Regazzoni and Lauda, but just as he was about to attack for second place on lap bhe touched a guard rail, spun through 180 degrees, and arrived at the Rascasse hairpin going backwards. But he reenvered quickly, shut nif again in seventh place and took the lead oo lap 33 when Lauda, who had overtaken Regazzoni 12

peterson was at his brilliant best tinday and he went on to a conclusive victory by almost half a minute from Scheckter and his Tyrrell after lowering the lap record to limin 27.9sec, 83.42 mpg.

The first lap accident was man in those excelence incidence which has those escalaring incidents which so nften occur when two cars touch in the middle of e crowded ruad a and the Rascasse hairpin going back-wards. But he recovered quickly, shut nif again in seventh place and took the lead oo lap 33 when Lauda, who had overtaken Regazzoni 12 Beltoise's BRM made contact, and

Jackie Stewart's prediction that Rounie Peterson would win the Menaco Grand Prix in his Lotushuilt John Player Special came true here this afternoon in one of the most dramant races to take place no this street circuit for several years.

The 30-year-old Swede escaped ahead of a multi-car collision on the opening lap which eliminated fire oil silck hehiad it which later was to send Hailunod's McLaren end Schuppan's Ensign spinning into the guard rails and out of the rece.

Bramhilla's March redred at the pits along with Beltoise's BRM while Schuppan struggled hack to replace a damaged wheel hefore rejoining and having his second accident. Leter Reutemann's Brahham was hit by another car and went out with suspension damage, and Stuck hed a dramatic accident all the way from the Casioo Square to the Miraheau corner which effectively demolished his March. All In all it

vas an expensive race though thankfully there were no casualties. After the luital melée, a group After the Initial mélée, a group comprising Regazzoni, Lauda, jarier (UOP Shadow), Peterson, Reutemann, Scheckter, Hunt (Hesketh), Hailwood and Stuck broke clean away from the remaining runners, but before half distance this had all changed. Peterson was then leading from Scheckter, who was driving magnificently on his first visit to Monaco, and Jerier, who was hanging on extremely well with the Shadow. Regazzoni had spun away his early lead and was now fourth, 40 sec hehind, while Fittipaldi was doing his best ro cluse the gap nn a treacheronsly slippery circuit, holly pursued by Watson, who was having a great race in the Hexagon Brahham.

Fram there on the race became somewhat processinnal, and apart from these six who were set for wurld championship points, the

only other survivors were the Enthassy Lolas of Hill and Edwards, lying screnth and eighth, and Depailler's Tyrrell, minth after a pit slop. Edwards had joined the 24 other starters at the last minute after Amon's car had been withdrawn with rear hub trouble As a result of his victory, at a speed of 80.74 mph, Petersoo has at last made an impact on the 1974 world championsoin. The list is still headed by Fittipaldi with 24 points, Regazzoni has moved into second place with 22, followed by Lauda with 21, Schecker with 12, Bulme with 11 and Peterson and Peterson and

Hulme with 11 and Peterson and Reltoise cath with 10.

Mrs Bayman brings back a title from her holiday

By Peter Ryde Golf Correspondent

Mrs Linda Bayman won the French amateur championship at Le Tonquet yesterday defeating Mrs Martine Gireaud by two holes over 36 on the La Mer course. over 36 on the La Mer course.

As Miss Denlson-Pender, Mrs Bayman was runner-up in Catherine de Prado in the championship twn years agn. In her formative years in golf she learned much from the great French women champions, and although her visit to France last week was in the nature of a holiday, this victory will have given her special pleasure.

She was two up at lunch on Mrs Gireand hut lost the first three Gireand hut lost the first three holes after and had to hole from 15 feet to avoid going two down at the 30th. Another purt of similar length hrought her hack

to all square at the 31st. In a finish of high quality they were all square again with two to play, but Mrs Bayman finished with two hirdies, holing from 18 feet for her three at the 36th.

In the men's champlonship, In the men's champlonship, played nver the same course, Alexis Godillot kept the title in his own country although there were three South Africans in the semifinals. Two down at lunch against Neville Sundelson, winner of the Brabazon Trophy the previous weekend, and four down after 22 holes, Godillot won eight of the next 10. next 10.

FRENCH AMATEUR CHAMPIONSHIP: Semi-ficals; A. Godil'ot (France) Post J. Harkes iS Africa.; 2 and J. N. Sundelson IS Africa: best 1. Krillian iS Africas at 15th Final: Godillot best Sundelson, 4 and 5.

United States circuit now appeals to Bembridge

By Lewine Mair

Maurice Bembridge, who, with his last round of 65 in the Piccadilly medal match-play golf tournament at Finham Park, Coventry, on Sat-urday, at once deprived Peter Costerbuis of his title and Ton-Jacklin nf his course record, reckons that he will have to think eriously shout playing the American circuit.

"I'm worried", he confessed, "about the dwinding number of tournaments in these islands," A player who thrives on constant competition, he hates, for example, the thought of going into this year's Open at Lytham without having Open at Lytham without having played in a tompament for four

In picking up four shots in the In picking up four shots in the first seven holes against Oosterhuis, Bembridge hit only line shot—a slightly pushed drive at the fourth—which he felt was anything less than perfect. What is more, it was during this admiliating spell that he dealt the blow which was, as far as he was concerned, "the killer for Oosterhuis"—a five iron which came to rest within a couple of inches of the hole at the 172 yards fifth.

The price Oosterhuis holed at

The pitch Oosterhuls boled at the 330 yards minth to pull himwas, Bembridge admitted, a bit of a setback. But at the next hole, the two shots were handed back when Oosterbuis, having come from rough and sand, took three purts and a six.

was always delightfully quick to acknowledge Bembridge's feats on Saturday afternoon. Oosterbuls had worked hard on his game all tweek and, undoubtedly, derived some consolation from the quality of his play throughout.

Of the two losing players in the of his play throughout.

Of the two losing players in the semi-final round, Gallacher, I suspect, was grateful to come sway with a cheque for £1,000 in a week in which be had always struggled with his driving. Similarly, Vicente Fernandez, who went out to Bembridge, felt that he had nor heen placing the hall well enough off the tee.

In fact, this likable little player from Argentina had his favourite driver and three wood taken from his bag during last year's Open at Troon. "I was", he sighed, "Inng and straight with that driver, With the one I have now I never feel quite sure what's going to happen."

The former of this Piccadilly.

he had not been placing the nail well enough off the tee.

Boxing

Finnegan can go up in the world if he upsets odds From Neil Allen

Boxing Correspondent Paris, May 26

Paris, May 26

Neither Kevin Finnegan nor Juhn
Stracey can be anything but underdugs for their European championship challenges at the Stade RolandGarres tomorrow evening. But their
datermination to win should be
strengthened by the realization that
rictory against France's Jean
Claude Boottier or Roger Menetrey
could be rewarded by another hig
pay day. The Parisian hoxing public
do not care too much about the do not care too much about the cadonality of a boxer prayided he is talented and colourful.

Sam Burns, who manages Finnegan as well as the somewhat more demanding William Hill Organization, is certainly not the kind of man to ignore the possibility of a small pot of gold. "If our of a small pot of gold. "If our hoys win well and please the Paris crowd". he savs, "they could get the kind of offer which might not he equalled in London. Look at the high cost of living here and how little the pound can huy. It's reflected in the kind of money Kevin or Straces would get for another hig outdoor fight here."

another hig outdoor fight here."

Already plans were being amounced today for Bouttier, the European middleweight champion and Fionegao's rival tomorrow, to meet Rodrigo Valdes, of Colombia, in August. Last night in Monaco, Valdes knocked out the American, Benny Briscoe, in the seventh round for the world middleweight title as recognized by the World Boxing Council, who have stripped Argentina's Carlos Monton of the title, though he still has the hackling of the World Boxing Association. If Finnegan npsets the odds tomorrow he could well take Bouttier's place against Valdes.

Of the two British challengers

Firmegao to make him farourite.

Rugby Union

Kicking and punching mar Lions' brilliant victory

Port Elizabeth, May 26.—A series of punching and kicking incideots in the rughy match hetween the Brinish Lions and Eastern Province will probably be remembered lunger than the hrilliant play which gave the Linns a 23—14 victory here yesterday.

The trouble hegen mly minutes after the kick-off, The worst exchange occurred just after halftime, when about six forwards punched and kicked each other fur some 90 seconds. Commentators some 90 seconds. Commentators were reluctant to lay the hlame squarely on either side and put the trouble down to the atmosphere of a needle match.

a needle match.
In one incident, the Eastern
Province lock, Olwage, was hit hy
three Lions, and when the flank
forward, van Eyck, came to his
rescue he was felled from behind.
On another occasion the Lions'
scrum-half and capitain, Edwards,
was unpercessive manhandled was unnecessarily manhandled when he was not near the hall. And on a third, the Eastern Province wing, Morer, held on to a Lions' player going into a tackle and received a punch in the stomach in return

ceived a punch in the stomach in return.

The incidents held up play for about 10 minutes, and the referee, Mr Pounle van der Vyer, never seemed to he fully in courrel of the situation, He falled to call Edwards and the Eastern Provioce captain, Marais, together as sooo as the trouble started. But when he finally did so the teams started playing superh rugby.

The Llons, who led 16—4 et halftime, scored two goals, four penalty goals and a try, to remaio undefeated after four matches. Eastern Province, who were regarded as the Llons' tonghest opnosition so far, scored a goal and two tries.

Though Eastern Province could take a measure of consolation from the fact that they scored the same

There was a splendid tussie between the packs. For the Lions Slattery played a storming game, shnwing up well in support and generally playing close to the hall. It was he whn npenad the scoring in the eighth minute while on the Eastern Province goalline for a try. And he was again on hand to collect from a maul and send Davies over for a try in the twenty-ninth minute.

In the lineouts Davies, Brown and Uttley shared the honours with Eastern Province. The Eastern Province hooker, de Coning, took the only tight-head heel against Windsor. At prop, Burton, in his first match of the tour, played well. But the foreging of the Eastern Province loose trio belped halance the odds and Edwards had an awkward time at the heels of his forwards. He needed attention on three occasions after heing harassed by Eastern Province.

Edwards and Bennett selected their patterns of attack with an ahundance of good hall. Bennett, who kicked 16 points, repeatedly set the three-quarters going with slicing runs and tricky hreaks. On

who kicked 16 points, repeatedly set the three-quarters going with slicing runs and tricky hreaks. On the wings Steele and Rees were generally well held by their Eastern Province opponents.

Eastern Province scored 12 of their points in the final 15 minutes and their performance during this period suggested that the Lious could be rattled when pushed back on defence, since their whole approach seems to be hased on attacking rughy. altacking rughy.

Slattery, Steele and Davies scored the Llons' tries. Beunett sicked four penalites and two conversions. Erasmus, Campher and Marais scored Eastern Province's tries, one of which Cowley converted.

hasically psychological. If he is not taken out of his stride carly their tour the All Blacks encounted the may become confident tered stiff resistance, and they tered stiff resistance, and they have the may become confident tered stiff resistance, and they have the showed in his today which had so frequently half penalty goal, and Robertson and Kirkpatrick scored tries in the tributed by unfair either to Stratey or to Threaten to make him fraguetic research by they were unable to national performance for several second half to give the All Blacks vears, but they were unable 10 victory.—Reuter.

Capes inflicts a rare defeat on Feuerbach

By Cliff Temple

Geoffrey Capes, the Commonwealth shot champion, achieved one of his life's ambitious when he defeated the American world record holder, Al Feuerbach, who was competing as o guest, on the first day of the inter-conoties championship at Crystal Palace resterdoy. yesterdoy.

Capes achieved a Cummonwealth

and United Kingdom outdoor record of 68ft 7in on his third throw, and although this was still some three feet below Feuerbach's record it was to prove ample for victory. The gental American could reach only 65ft 113in with the last put of the competition, leaving Capes the winner for the first time in their three valoable meetings over the past fire days. It was only Feuerbach's third defeat in 46 outdoor competitions in the past two years.

The clash proved the highlight of a rather thin opening day's competition and even the next best events had little to do with counties or receipts.

events had little to do with countics or regions. Andrea Lyuch and Raclene Boyle clashed in the invitation 190 and 200 metres to continue their rivalry. Miss Lyuch equalled the United Kingdom all-comers 100 metres record of 11.3sec and bad ber best 200 metres time of 23.2sec, although losing to Miss Boyle over the longer distance. Mrs Christine Warden (née Howell) from Hull sliced a full second off Jindy Vernon's Commonwealth best for 400 metres hurdles with \$8.9sec, just 24 bours after winning the Yorkshire 400 metres flat title in a fast \$4.4sec.

100 METRES: 1, S. Green (Kent), 10.5scc; 2, B. Green (Lancashire), 10.5; 5, Edwards (S Walest, 10.6.

Capes . . . a life's ambition achieved

New faces may make their presence felt in today's 800 metres and one mile finals. In the mile beats yesterday David Biack, stepping down in distance, found the traditional mad rush for places in the final rather bazardous and only qualified as one of the fastest losers in 4min 5.5sec.

lead running down to the straight for the final time. As they beaded for home he was immediately possed by Authi and Lassalle, with Réciperé making steady beadway.

Lassalle took np the running well over a furlong out. He was joined by Récipere entering the final furlong, but looked to be bolding his rival almost to the line. With 20 yards to run Saint-Martin thought that be was beaten, but, in the final strides. Récipère gained ground inch by linch to win by a head.

Lassalle will try to repeat his rictory of last year in the Ascot Gold Cnp, but Récipèré was not entered. His connexions bope to win a top middle distance race. Récupéré, who has been improving steadily since last autumn, was bred by the Burton Agnes stud in Yorkstire, and sold at Newmarket for 2,300 guineas as a yearling. The original buyer was a Newmarket for 2,300 guineas as a yearling. The original buyer was a Newmarket trainer. Ian Walker, but the colt was later resold to his present trainer, Gilles Delloye.

His dam, Nelion, who is by Grey Sovereign out of a Worden II mare, won twice as a two-year-old in 1956, when trained by Noel Murless. At Great Yarmouth, she provided the South African jockey, John Gorton, with his first winner in Europe.

The £31,818 Prix Saint-Alary was in Europe. The £31,818 Prix Saint-Alary was won by Comtesse de Loir ridden by Jean Clande Desaint. A 16-1 out-sider, she beat Hippodamfa by two lengths and a balf, with La Tulipe threequarters of a length away

Detour costs van Springel race

Paris, May 26.—Regis Delepine, of France, was made winner of the 368 miles Bordeaux to Paris motorpaced cycle race here today after provisional results bad put the Belgion, Hermann van Springel, in first place. The race stewards said that van Springel bad taken a short cut.

Van Springel, the rare officials ruled, strayed from the officially charted road outside of Chartres, 63 miles before the end of the race, 63 miles before the end of the race, and took a country road. The 30-year-old Belgian was later directed by the police through side roads to the highway mapped ont by organizers. Although the detour cost bim appreciable time, the Belgian, who dominated the rare, came in first in 14br 47uin 08sec.

Mark Vestey's gamble

By Andrew Porter
In the quarter-final round of the Queen's Cup played at Windsor yesterday San Flamingo, received o balf, beat Stowell Park Si—3 and Les Dlables Bleus beat Golden Eagles (received 3!), 7—5!.
Edward Moore the eight-soal Stowell ployer failed to catch the flight from Madrid in time and the four-goal Garcia was put in as substitute to play off Moore's handicap for one period to the bope that the star would arrive in time.
The other alternative was to let

hard and Mark Vescey amious to cover Garcia. In the event the two opposing backs did most of the work and indeed the American. Yitisaker, was the best player on the ground. The two number ones never bad much chance as they seldom saw the ball hit up in front of them. Howard Hiowood hit most of the goals for San Flamingo but between the two brothers a number of opportunities went astray.

The second match was a better gome of polo played at top pace with the two brothers Merkos on opposing sides. For four periods the Golden Eagles held their opponents to the odd half goal. Moore and Basualdo fought like heroes and Mahony has o real touch of cless. But the victory went eventuolly to the big Italians in the touch of cless. But the victory went eventuolly to the big Italians in the last period. C. Merlos had bit five goals for his side against two from Nahony and then Wildenstein polished off a good performance at No 1 br scoring twice to clinch the match in the finol chukka.

Impressive start by British team

Dorwin, Moy 26.—The British Rugby Leogue teom began their tour of Australis with a runaway victory by 41—2 over Darwin before a capocity crowd of 7,000

Toking the field less than 48 hours after their long flight, the British players gove a strong performance.

Yachting

fails to pay off By Andrew Porter

Star would arrive in time.

The other alternative was to let Garcia play right through the match on his own bandicap but this would bave precluded Moore taking part in the rest of the tonrnament. Mark Vestey gambled wrong for had they played off Garcia's handicap they would have woo the match.

tide carried them.

Within a few minutes of the breeze filliog in, however, the scene was quite different. Soon the dinghies were jilling to and fro; a starting line was bastily laid and the Dutchmen were sent away. Kelth Paul in bis new boat. Schmozzie, was first of the fleet of 13 to round the windward mark, followed by Keith Musto in his now middle-aged Ladvkiller. Oouglas Bicbop, rinner of Sotunday's race in Chacal, was lying fourth, but outchy mored up to third place on the reaches.

By the end of the second round match.
It was oo unsettled sort of motch

on the reaches.

By the end of the second round Bishop had closed on Mesto, and might have passed him at tirt weother mark bad he not been balked by a Merlin-Rocker, also hying to round the mark. The Fireballs at this time were being led by Adrian Locke in Slop Along, who was the winner on Sourday. But he was being forced to cover Richard Oswald (third on Saturday) who was closing fast on the second windward leg. A large fleet of Merlin-Rockets was also using the Olympic course set for the international classes and they were being led by a wide margin by Patrick Elske Iwinner on Saturday) in Mythelated Spirit.

Paul went on to win the Flying

Paul went on to win the Flying Dutchman race and although Bishop continued to put pressure on M Auesto, be was unable to get past. Paul and Eisbop are now overall leaders, each with a first and third place, in a series, which is a qualifying event for the world championship.

championship.

The Fireballs changed places frequently during their final round, with Hustle (R. Philpott) taking first place and Richard Oswald yielding second place to his twin brother. John, after tearing his spinnaker. Blake sailed around untroubled by the rest of the Merlins and David Pitman won in the Contenders.

hoving alreody besten My Drifter at Doncaster. Herbert Blagrave's decision to run Bright Fire in this race, instead of in the Jubilee Stakes at Kempton on Saturday, must be borne to mind, especially os his task looks much more formidable this afternoon. It will be surprising if Bright Fire does not run better than when he finished only sixth behind Funny Pellow and Tndor Rhythm here in April. That was his first race of the season, but it is still difficult to envisage him giving his younger rivals weight, especially Ksar, who finished fourth in the Derby last horse, although it is not actually sponsored by them; onother group three pattern race, the Temple Stakes; and the Yellow Pages Whitsun Cop. After a hearly day resterday which began with an encouragingly good ride on his Oaks Hily. Dividale, in a gallop at Kempton Park, and rostinued in France, where he rode Parnell in the Prix du Cadran, the champion jocker, William Carson, will be at Sandown and hoping to win not only the Brizadier Carson, will be at Sandown and hoping to win not only the Brigadier Gerard Stakes on Ksar, but the Temple Stakes on Noble Mark. Carson may also start the day off well by winning the Ann Boleyn Fillies Stakes, on Mirthful Flirt; who ran with so much promise at Newmarket, in the race which cast Slity in such a favourable light. Bernard van Cutsem told me at Haydock Park on Saturday that

Gospill Hill, the only other ruo-ber, has not run this season, but that must not be beld against him. He is trained by Noel Muriess and he won his first race, the Blue Riband Trial Stakes, at Epsom last season. A mile and a quarter is probably his ideal race, but Ksar is preferred on this occasion. His first race this season against the redoubtable French filly. Allez France, in the Prix d'Harcourt at Loogchamp angured well for his

Bernard van Cutsem told me at Haydock Park on Saturday that Ksar would be sent to France at the end of this week to run in the Prix Dollar at Longchamp near Sundoy, if he won the Brigadier Gerard Stakes, which I expect mim to do. Ksar will be racing on the ground that be loves and over his best distance this afternoon. Stakes, which I expect him to do.

Kar will be racing on the ground
that be loves and over his best distance this afternoon.

Using Funny Fellow as a yardstick—his form is intervoven with
that of Ksar Tudor Rhythm, My

Loyalty and sentiment will be rewarded at Redcar

By Jim Snow

Northern Rucing Correspondent
Whether it is o breeze coming in from the sea, the plain Yorkshire air, or the ICI works near by, there is something about the Redcar mile and threequarters which appeals to the seven-year-old Petty Officer, and his jockey, Geoffrey Baxter. Should Petty Officer win today's 156,000 Veux Gold Tankard, it will be his third snocessive victory in the bandicap.

No doubt Arthur Budgett will be sending him North again for the Timeform Gold Trophy in July. His other big stamina test at Redcar be bas also won, in 1972 and 1973, and the weights be bas carried bare been respectively 8 st 5 lb, 9 st 1 lb and 9 st 13 lb.

For bis owner, Mrs J. Benskin, who has had horses with Bodgett for a great many years. Petty Officer is asked a severe question to concede 19 lb to Reformed Character. Celtic Sam, the mount of Edward Hide, in his one outing this season, ran well to be located to select Petty Officer in three of his four big successes at Redcar. The memory of having opposed him onre rentairs an almost unforgitable effrontery, and I take him to win the Youx Gold Tankard for the continue to select Petty Officer in three of his four big successes at Redcar. The memory of having opposed him onre rentairs an almost unforgitable effornery, and I take him to win the Youx Gold Tankard for the continue to select Petty Officer in three of his four by and sentiment, and it can be argued that as be won the 1973 Timeform Gold Trophy by a bead under 9 st 13 lb. be must go well this after some. In the Yorkshire Cup, two seeds ago, be ran a fine race to be second to Bugot. He was bandit, appeal by being for the running five furlongs from bome. Usually be comes with a petty officer in the banditap.

There is a line through Buoy in the york-shire Cup, two sellows ago, be ran a fine race to be second to Bugot. He was to be running five furlongs from bome. Usually be comes with a bear. Porter Stakes of Newbury to Free is also the running five furlongs fine tours. Provide Stakes he was to the running f

of his four big successes at Redcar. The memory of having opposed him onre remains ao almost unforgivable effrontery, and I take him to win the Voux Gold Tankard for the third time from Reformed Character and Celvic Sam

A Transport of the Control of the Co

ose's century takes merset to story and the top

IL: Somerset beat Glou-ire by 11 runs. ocautifully sunny afternoon, the largest crowds I have the Bristol ground—about mjoyed a match full of in-ind character: the Somerset ers rather more than the tershire ones, since Somer-ctory, though palpitatingly aless them level with Gloo-ire at the top of the John League.

rest made 262 for three in) overs. This meant that tershire if they were to d to score more runs than n made in the second inings yer match before. Leices-'s 254 for seven, against in 1969, is the highest; I do ik there has been a match th more runs were scored ter than this one.

in more runs were scired her than this one.

rset's innings built itself i century by Close, his first competition. He bad been at ball in the championship between these sides on the sand took the opportunity renge himself. Somerset Gloucestershire is a version of Lancashire Yorkshire, and with the and the passion, it seemed trootton far-off things and long ago stirred the nostrils old warhorse. His strokes fair unxture of the classifier of the sand the baroque. That famous about which foes and friends lways bad such varied feelass going well. Ultimately it ose out, but by then be bad 128, and Somerset were 223 of the 35th over.

gess made a sensible contri-to an opening partnership Denning and then Richards the pressure on Brown used bowlers and did what a o might, but Gloucestershire looking careworn by the

ever, they were not without for they had some notable rs, and the pitch, though billous looking, was playing from the start their immings from the start their innings all of action. In the first over was caught off a no ball, and run out. Wildes and oo balls erated (I thought Wight was in some of his jodgments on ides). In the tenth over, with Spepherd was dropped by all on the midwicket bounds with the start of at while he was watching the and the furious throw by rds ran him out. was playing confidently, oon Procter was too, after one dreadfully easy chance d-off. With 20 overs bowled,

Gloucestershire were 102 for two, still bunting but needing to spor. With 25 gone, they were 149, but Knight had been smartly caught and bowled by Botham. For the next half boor, Procter and Zaheer scored so fast that a Gloncestershire win seemed quite likely, but at 224 Zaheer was caught at deep square leg, and at 227 Procter was leg before to Clapp, who in a time of tension howled in the calm, scholarly way one likes to expect of a good young one likes to expect of a good young schoolmaster.

schoolmaster.

Procter's innings made an interesting contrast with that of Close. He scored most of his runs on the off-side, risking drives which were often some way from the pitch, balls which Close would have swept. Procter's eye, his straight bat, and his timing saw him through until be was 98. His was the more agreeable innings to watch, but both were memorable, and almost enough to reconcile one to Sunday cricket. Once Procter bad gone, Gloucestershire kept swinging, but the bope had become forlorn.

Roope stumped by Stephenson at the Oval yesterday.

Surrey rally from a slow and unconvincing start

By John Woodcock Cricket Correspondent

THE OVAL: Surrey (4 pts) beat Hampshire by 14 runs. Recovering from a slow and un-convincing start, Surrey beat Hampshire with more to spare than the margin suggests in the John Player League yesterday. It was a good victory and one which keeps them well up the Sunday table.

table.

At 98 for five after 29 overs, with Hampshire fielding and bowling well, it had not lonked at all like being Surrey's day. A good crowd, picknicking in the sunshine, bad to wait for Edrich first to cajole, then to justic Surrey to 188 for eight

to cajole, then to jostie Surrey to 188 for eight.

Things baving started to go wrong for Hampshire in the field, they never went right again. Richards, supreme at Trent Bridge on Saturday, bad no touch. Even so, Hampshire would probably have done it had Richards stayed After making 14 in 13 overs, however, be hooked Storey straight to deep square leg. Aircady behind the clock, Hampshire never canght up with it, the nearest they came to doing so being when, in the nineteenth and twentieth overs. Greenidge and Turner took 26 off intikhab and Storey.

Greenidge played far and away the best innings for Hampshire. But both be and Turner were out forcing, as were most of the others. Hampshire found no easy runs, as Surrey had off Jesty, and Surrey let only one chance slip, against Hampshire's three. This was Sainsbury, who was not the likeliest person to make them regret it. What had been a good run for Hampshire ended rather inglorionsly, in fact.

In their first 30 overs Surrey had scored 105 for five. In their last 10 they added another 83, thanks to Storey and Intikhah as well as Edrich. In five overs Edrich and Intikhab put on 41. That was the partnership which

decided it. There was a costly miss at long on, off Jesty, when Intibbah was six, and another at midwicket off Taylor when Edrich was 11. On the credit side, Stephenson caught Skinner well and stumped Roope with great alacrity. He also failed to stump Edrich when he bed time to spare. Intikhab hit the ball with terrible power; Edrich worked it off his legs for the large majority uf his runs. Storey drove well, as Younis had. Suddenly Jesty was unable to keep the runs down. His pace was as friendly as Roberts's, even off a 15-yard runs, bad been fearsome. Having given Hampshire their early advantage, Roberts's, even off a 15-yard run, with his friends in the crowd. A lot of West Indians had come round the coroer to see him, and

round the coroer to see him, and be did nothing to disappoint them.

Kent stroll and sprint to their second win

By Peter Marson CANTERBURY : Kent (4 pts) bost

Essex by five wickers. A splendid crowd of close on 10,000—a colourful sight in their number one summer rig—perred contentedly in the sundances. contentedly in the sundance of Kent, strolling at first but sprint-ling in the finish, scored their second success in the John Player League on the St Lawrence ground yesterday. Essex, who bave now lost the third of four matches, had set Kent a moderate target of 130 runs to win.

set Kent a moderate target of 180 runs to win.

Lockhurst gave Kent a sound start, and though be lost Johnson in the eleventh over at 40, and Denness in the eighteenth over at 84, be bad laid the foundations to victory with an admirable 45.

After blim Asif gave the indicase with an expansive 55 in 40 minutes. He had reached his half century out of 64 runs in 13 overs, hitting a six, an on-drive off East, and six fours. When Asif got out in the thirty-sixth over Kent needed 16 runs to win. Essex ran out Ealbam to suggest a tight finish, but Knott and Shepherd lay about them soccessfully, Knott clinching victory with the day's last boundary with 11 balls in the match remaining.

dary with 11 balls in the match remaining.

Essex woo the toss and batted first on a beautiful ritch. They had done some shoffling with the pack, dropping their opening batsman down to the middle of the order, and presumably aiming for a brisk beginning put their trust in Turner and Fietcher. Boyce was to come in first wicket down. The The idea looked more promising than it proved to be.

After five overs Essex bad made 11 runs, and after 10 they bad 25 runs. Essex put in a spurt bereabouts, with Turner leading the way. In the twelfth over Fletcher pniled Graham behiod square leg, and there Underwood held his catch. Boyce was in tune from his first ball, which was steered past the untenanted position of slip to the untenanted position of slip to the boundary. He then set about Shepherd, twice on-driving him into the crowd and with a late cut for four off Graham, Boyce bad overtaken Turner in just four overs, and Turner bad had 12 precs sart.

Football

England set out on long road back to the top

By Geoffrey Green Fostball Correspondent

England's footballers set forth today on their close season tour of England's footballers set forth today an their clase season tour of the Continent like a deprived child looking in a sweetshop and longing for a share of the guodies oo display. They go to East Germany, Bulgaria and Yugoslavia over the next 11 days, three Eastern Luropean nations who will all be playing their part in the tenth World Cup In West Germany, while England, who first organized and spread the game to every coroer of the globe, will be left twiddling their thumbs and watching from a distance.

Yet there is little need to feel alone and excluded. There are other traditional footballing countries such as Hungary and Czechoslovakia—each World Cup finalists of the past—Spain, Portugal, France and Belgium, even the Soviet Union, who also bave failed for one reason or another to reach the startiog line.

Mezowhile there is work to be dood for the future. In only two years the next World Cup qualifying stages will be upon us aod even more immediate there is the European championship to consider. It begins to the coming aotumn. There is on time like the present for starting to rehaild and rethink. It is the responsibility of Joe Mercer, the caretaker in succession to Sir Alf Ramsey, to lay the foundations for tomorrow.

A mao of limited international experience as a manager—aport

again and again.

It took a splendid piece of fielding by Ealham to put Kent back on the rails, and from the point when he threw out McEwan at 115 for three. Essex slowly folded up. The remaining seven wickets fell for 64 runs in 16 overs. Turner had dooe well to hold the innings together to hold the innings together to the five. In the bowlers, Shecherd with three for 38, and Graham with two for 26, had been the best. the foundations for tomorrow.

A mao of limited international experience as a manager—aport from Manchester City's ill-starred entry to the European Cup of 1969 and their winning of the Cup Winners' Cup in 1970—Mercer is in the process of bringing his dossier on the contemporary overseas screen up to date.

FALL OF WICKETS: 1-36, 3-62, 3-117, 4-12, 5-127, 6-136, 7-141, 5-142, 9-161 BOWLING: Gration, \$-3-26-2; Asil, -C-33-1: Stephend, \$-0-38-3: Wool-art, :-0-41-2: Upderwood, E-0-34-0. seas scene up to date.

This could be important since a whisper has said that Mercer, so far from being a temporary stop-
